Dear Maryland Early Childhood Service Provider,

The Core Knowledge Foundation is proud that our preschool curriculum, the *Core Knowledge Preschool Sequence*, has been selected as an approved curriculum in the state of Maryland.

The *Core Knowledge Preschool Sequence* is an explicitly stated set of goals and objectives for the preschool classroom. Only by explicitly specifying the competencies and knowledge that all children should share can we guarantee equal access to those competencies and knowledge. With a strong focus on challenging but appropriate content, the Preschool Sequence is unique among early childhood programs. It outlines a comprehensive and coherent progression of knowledge and skills in all developmental areas.

The State of Maryland is sponsoring a series of one-day workshops for a \$10 fee, that will allow you to learn more about the *Core Knowledge Preschool Sequence*.

Workshops are scheduled for the following dates and locations:
