Unit 7
The Reformation
Activity Book
This Activity Book contains activity pages that accompany the lessons from the Unit 7 Teacher Guide. The activity pages are organized and numbered according to the lesson number and the order in which they are used within the lesson. For example, if there are two activity pages for Lesson 4, the first will be numbered 4.1 and the second 4.2. The Activity Book is a student component, which means each student should have an Activity Book.
Excerpt from “The Power of the Church”

Chapter 5
The Power of the Church

It is 6:00 a.m. The church bells are ringing to welcome the day and to summon you to church. The early morning sunlight illuminates the stained-glass windows. Sometimes, at daybreak, you attend a church service before starting work. You pray often and your life is anchored to the Church.
It may be impossible for us to understand just how important the Christian Church was to most Europeans in the Middle Ages. Not only did the local lords have great influence over people’s lives, but the Church did, too. The power of the Church had grown gradually over a long period of time.

Christianity is based on the teachings of a man named Jesus who lived hundreds of years before the Middle Ages began. Jesus’s followers were known as Christians.

In the first three hundred years after Jesus’s life, Christianity grew slowly. In fact, in the early years of the ancient Roman civilization, Romans were not permitted to practice the Christian faith. Later, Christianity was tolerated as one religion among several. Eventually, it became the official religion of the Roman Empire. Christianity spread throughout the Empire. As it spread, the power and influence of the Church in Rome grew. The pope was the leader of the western Church.

As time went on, during the Middle Ages, conflicts developed between the eastern followers of the Church, who spoke Greek, and the western followers, who spoke Latin. Finally, in 1054 CE, the two sides split over differing beliefs. The eastern Church was called Orthodox. Members of the Orthodox Church thought their beliefs were orthodox, or correct. The western Church, based in Rome, was called Catholic. Members of the Catholic Church thought their beliefs were catholic, or universal.
The two Christian Churches that emerged during the Middle Ages still exist today.

In western Europe, almost every village and town had a church. Most people attended church on Sunday.

In addition, certain days were considered holy days to mark important events in the life of Jesus and his followers. People did not work on these days, but instead went to church. Some holy days were feast days and other holy days were days of fasting. Christmas, an important Christian holiday, was a time of feasting, or celebration. The forty days before Easter, another Christian holiday, were a time of fasting called Lent.

Architects and craftsmen in the Middle Ages built beautiful churches to express their love for God. New engineering skills enabled stonemasons to create a style of architecture that later became known as Gothic. They built tall towers, arches, rose windows, and spires. Sometimes it took hundreds of years to complete a great medieval cathedral.
Holy shrines dedicated to people who played an important role in the history of Christianity were scattered across western Europe. These shrines were usually places where religious figures had been killed or buried, or where miracles were believed to have happened. Most Christians hoped to go on at least one journey, or pilgrimage, to visit one of these shrines in their lifetime. For many, going on a pilgrimage meant walking or riding long distances, and eating and sleeping in roadside taverns or religious houses. Many men and women made the journey to fulfill a vow to God, to seek a cure for a disease, or just to travel abroad.

Monks were men who chose to live apart from society and to devote their lives to the Church. They spent their lives in monasteries, working on the land, studying, and praying. Monks were often the most educated people in Europe, especially in the early part of the Middle Ages. A monastery was a building, or collection of buildings, that housed monks. Monasteries were usually contained within high walls that provided a certain amount of protection.
Women also joined the Church. Women who devoted their lives to the Church were called nuns. Nuns lived in convents, or nunneries. Nuns received many of the same benefits as monks. They were educated and were taught crafts and other skills.

As the Church grew in power and influence, it became very wealthy. The Church raised taxes and it owned land. People who held powerful positions within the Church often came from wealthy noble families. They gave large amounts of money to the Church. The Church also influenced political decisions and supported or opposed kings.

Not only powerful people gave money to the Church. All Christians were required to pay one-tenth of their earnings to the Church. This payment was known as a tithe.

However, there was a troubling side to this deeply religious period in history. Some people expressed ideas with which the pope and other Church leaders disagreed. Church leaders called these contradictory opinions heresy, and the people who held them were called heretics. Heretics were treated cruelly.
Precious Books

During the Middle Ages, monks and nuns studied the writings of ancient Greeks and Romans. Their libraries contained books about religion, science, poetry, mathematics, and history. Monks and nuns also copied ancient writings by hand. There were no machines or printers that made books. By copying these texts, monks and nuns helped to preserve, or save, ancient knowledge that would otherwise have been lost.

In the late Middle Ages, the higher social classes who could read, and even write, owned their own prayer books, such as the *Books of Hours*. These prayer books were read at different times of the day. In addition to prayers, the books included biblical texts, calendars, hymns, and painted pictures.

Many of the books produced by monks and nuns contained *exquisite* art and design features. After the Middle Ages, as a result of Johannes Gutenberg’s invention of the printing press around 1450 CE, more affordable books were produced. These printed books began to replace the beautiful handmade books and made these original manuscripts even more rare.
Vocabulary for “The Power of the Printed Word”

1. secular, adj. not connected to religion (4)

2. parchment, n. material made from animal skin and used as a writing surface (4)

3. bind, v. to fasten two or more things together (4)

4. clergy, n. people who are religious leaders and who perform religious ceremonies (4)

5. revolutionize, v. to completely change something (revolutionized) (10)

6. doctrine, n. a belief or set of beliefs held by a group of people (10)

Excerpt from “The Power of the Printed Word”

Read the excerpt and complete the activity that follows.

Chapter 1

The Power of the Printed Word

Did you know that a man named “John Gooseflesh” changed the world? Johann Gensfleisch, which in English is John Gooseflesh, was born in the city of Mainz, Germany, around 1397 CE. However, by the time Johann started school, he went by the name Gutenberg instead of Gensfleisch and that is the name we remember. Gutenberg was the name of the large manor house in which Johann grew up. He came from a very wealthy family.

Johann was taught to read from an early age. Unlike the homes of less privileged children in the early 1400s, the Gutenberg house was full of books. That may not seem unusual, but it was. Books in the 1400s were very different from the books we have today. The book you are reading right now is a printed book. There are thousands of copies of this book, all exactly the same. They were printed by machines in a very short time. Not so with the books in Johann’s day. Each book in the Gutenberg’s home library was one of a kind, rare, and expensive.
Books in the Middle Ages

Throughout the Middle Ages, books were made by hand. Much of the writing was done by monks working in monasteries, although the craft of making books also took place in some universities and secular schools. Primarily existing books such as the Bible and great works authored by ancient Greek and Roman scholars were copied. The monks painstakingly copied the text with pen and ink on thin sheets of parchment.

It typically took monks many weeks or months to complete the pages of an entire book. The highest quality books were illustrated. This task was accomplished by a skilled artist called an illuminator. An illuminator decorated the pages with colorful, ornate designs and small pictures. Bits of gold, pounded very thin, were applied to the pages of the most expensive books to make the text and illustrations shine.

When the manuscript was finished, the final step was to bind the pages into a book. This was done by sewing them together along one side and then sandwiching them between wooden boards covered with cloth or leather.

An enormous amount of time and effort went into creating each book. Only the wealthiest members of society, scholars, and Church clergy could afford to own such treasures. Throughout the Middle Ages, of course, these were typically the only people who were able to read.
Lead and Letters

When Johann Gutenberg finished school, he went to work at the mint in Mainz. His father was in charge of the mint, which coined money for the city. Johann learned how to melt and cast metal in molds to form precise shapes. He liked working with metal, and he was skilled at metal casting.

As Johann Gutenberg grew older and became a master metalsmith, he thought a lot about the growing demand for books. His experience working with metal gave him an idea: what if he cast letters out of a metal such as lead? He could arrange those metal letters, or pieces of type, in lines to spell out words, make sentences, and create entire pages of text. By applying ink to the surface of the type and pressing paper onto it, he could print those pages.

Gutenberg set out to try. First, he developed a way to pour melted lead into molds in the shapes of the letters of the alphabet. Each letter (piece of type) was cast as a mirror image of how it would look when printed. For example, “R” was cast as “Я,” and “C” was cast as “Ъ.” Gutenberg made many copies of each letter, both capital and lowercase, plus every punctuation mark. Because his collection of metal type was made up of individual pieces that could be moved around to form endless combinations of letters, it was called movable type.
Gutenberg didn’t truly invent movable type. The Chinese and Koreans had used a form of movable type hundreds of years earlier. He didn’t invent printing, either. Different printing techniques had also existed for centuries. In Europe, people had begun printing with ink on paper using blocks of wood. This technique called woodblock or woodcut printing began around 1400 CE. The surface of a block of wood was carved to create raised letters and images. Ink was then applied to the carved surface. Finally, the block was pressed onto paper to make a print. If you’ve ever pressed your thumb onto an inkpad and then touched it to paper, you’ve created a “thumbprint” in much the same way. Woodblock printing was a complex and time-consuming process. It wasn’t much faster than copying pages of text by hand!

What Johann Gutenberg did invent was a machine that greatly improved the process of printing with movable type. He may have gotten the idea for his press from a winepress, a machine used to press the juice out of grapes. Gutenberg’s printing press worked in a similar way. Instead of squeezing grapes, though, his press squeezed paper against the inked surface of metal type to make a clear, dark imprint of words on paper. Once he had perfected both his metal type and his press, he was able to print—with help from a number of assistants—several hundred pages a day.
Gutenberg’s Bible

After experimenting with printing a few official documents and small, simple books of grammar, Gutenberg was ready to undertake a big project. He decided to print a large, beautiful Bible. He hoped to make a lot of money. Gutenberg started printing his Bible around 1450 CE. He may have cast more than 100,000 pieces of type for it. Several times during the process he ran out of money and had to borrow more. He completed the first edition of roughly 180 copies of the Bible (the exact number isn't really known) in 1454 or 1455 CE. Gutenberg’s Bible was the first large book printed with movable metal type in Europe.

The Power of Communication

Gutenberg didn’t make much money from his Bible or his new printing process. But as you read at the beginning of this chapter, he did change the world. Gutenberg’s printing press and the availability of inexpensive paper made it possible to produce many copies of books and documents quickly. This dramatically lowered the price of books and other printed materials. Suddenly, people had a way to distribute ideas and information from person to person, and place to place, much faster than ever before.

Soon printing presses just like Gutenberg’s were producing hundreds and then thousands of books in cities throughout Europe. At first, most books were printed in Latin. But it wasn’t long before books were being printed in more familiar languages including French, English, Italian, Spanish, and German.

At this time too, literacy, or the ability to read and write, increased across Europe. A growing middle class of merchants and craftsmen gained both wealth and influence. Learning to read and write became something more and more people wanted, and needed, to do. As a result, the demand for books increased. Books and other printed materials were more readily available for those people who could read.

Today, you can walk into a library or bookstore and choose from thousands of books. You can download books from the Internet to laptops, tablets, and phones. So you have to use your imagination to really appreciate
just how big a change Gutenberg and his printing press brought about. Before Gutenberg, very few people had ever held, let alone read, a book. After Gutenberg, books were much more common. Gutenberg’s printing press revolutionized communication, much like the Internet revolutionized how people communicated in the second half of the 1900s—although at not quite the same lightning speed! Plentiful, affordable books opened the door to a whole new world of learning and ideas.

Some people didn’t like this turn of events, however. Some government officials worried: what if printing presses are used to spread ideas that weaken our power over the people? Some leaders of the Catholic Church thought: what if the presses are used to publish ideas that contradict Church doctrine?

But no one could stop the presses and the sudden flow of information and ideas. It is true to say that Gutenberg revolutionized communication. And just as some political and religious leaders feared, big changes certainly did lie ahead.
The following words or phrases were used in Chapter 1, “The Power of the Printed Word.” For each word or phrase, pick an activity and complete the chart below.

**Vocabulary Activities**

1. Write a definition in your own words. You may use your glossary as a reference.
2. Provide a synonym (similar meaning).
3. Provide an antonym (opposite meaning).
4. Use the word in a sentence.
5. Provide another word that the word or phrase makes you think of and explain why. (*Apple* makes me think of bananas because they are both fruits.)
6. Think of an example of the word or phrase and write about it. (An example of *fruit* is cantaloupe. It is a melon that is white on the outside and orange on the inside. They are really tasty in the summer.)
Glossary for Shifts in Power

A

advocate, v. to act in favor of or on behalf of someone or something (advocated)

B

bequeath, v. to pass on property to someone in a will (bequeathed)
bind, v. to fasten two or more things together

C

calling, n. a strong urge to pursue a specific profession or way of life

cardinal, n. a leader in the Catholic Church who is chosen by the pope (cardinals)
censor, v. to examine and control the content of materials (censored)
clergy, n. people who are religious leaders and who perform religious ceremonies
condemn, v. to say in a strong or definite way that something is wrong or bad
confess, v. to admit you did something wrong (confessed)
congregation, n. the members of a church gathered for a religious ceremony
contemporary, n. a person living in the same time period and/or who is the same age as another person (contemporaries)
contradict, v. to disagree with and go against a statement or action (contradicted)
contraption, n. a machine or device that is strange and/or complex

convert, n. a person who has changed his or her beliefs or changed religions (converts)

decree, n. an official order that must be followed (decrees)
defy, v. to go against; to refuse to obey (defying)
descend, v. to come down (descended)
devout, adj. devoted, especially to a specific religion or point of view
doctrine, n. a belief or set of beliefs held by a group of people

embrace, v. to welcome wholeheartedly (embraced)
endow, v. to give a quality or ability to (endowed)
extravagance, n. something that is expensive or wasteful and not a necessity

foe, n. enemy

heresy, n. beliefs or opinions that challenge, or go against, the beliefs or opinions of those in power
immoral, adj. going against the principles of right and wrong that are generally accepted by most members of a group

institution, n. an organization set up for a specific purpose

intervene, v. to come between; to prevent from happening (intervened)

lever, n. a strong, solid bar used to move or lift something

mechanism, n. 1. a piece of machinery; 2. parts that work together in a machine

order, n. a religious group with specific beliefs and practices (orders)

parchment, n. material made from animal skin and used as a writing surface

pendulum, n. a weight that swings regularly back and forth, often used to measure time in a clock (pendulums)

persecute, v. to treat someone unfairly or cruelly because of his or her religious beliefs (persecuted)

persecution, n. the act of treating someone unfairly or cruelly because of his or her religious beliefs

ponder, v. to think about deeply (pondered)

proof, n. 1. evidence that something is true or correct; 2. a test showing that a mathematic calculation is correct (proofs)

radical, adj. very disruptive to a widely accepted belief or idea

recant, v. to publicly take back an opinion expressed in the past

reform, n. an improvement (reformers; reformation)

revered, adj. looked up to; held in high esteem

revitalize, v. to give life to or energize again (revitalizing)

revolutionize, v. to completely change something (revolutionized)

rhythm, n. a regularly repeated motion or sound

salvation, n. the act of being saved from sin or danger

sect, n. a smaller group of people united by common religious beliefs that often contradict the beliefs of a larger group

secular, adj. not connected to religion

self-disciplined, adj. the ability to make yourself do what is necessary on your own without being told by someone else

shame, n. a negative feeling of embarrassment or regret

sin, n. an action that is considered morally wrong or that goes against religious teachings

speculation, n. an educated guess about something; not proven beyond doubt
spiritual, adj. of or related to religious beliefs and feelings

superior, n. a person in a higher position (superiors)

THE

theology, n. the study of religion

theory, n. an explanation for why something happens based on evidence (theories)

thesis, n. a statement or idea (theses)
Vocabulary for “Letters Come Alive!”

1. **contraption, n.** a machine or device that is strange and/or complex (16)

2. **mechanism, n.** 1. a piece of machinery; 2. parts that work together in a machine (17)

3. **lever, n.** a strong, solid bar used to move or lift something (17)

4. **descend, v.** to come down (descended) (19)

5. **rhythm, n.** a regularly repeated motion or sound (20)

6. **shame, n.** a negative feeling of embarrassment or regret (22)

Excerpt from “Letters Come Alive!”

Read the excerpt from “Letters Come Alive!” Then, based on what you read, help Jacques write instructions for using the printing press.

1 Jacques swept his way over to where Henri was working and watched the old man out of the corner of his eye. He had filled a large wooden frame with rows and rows of the little pieces of metal. Jacques realized they must be letters, what Jean-Claude had called type. Henri’s job seemed to be to arrange the letters—the type—to form words. Obviously Henri knew how to read. The thought made Jacques uneasy.

2 Henri suddenly lifted up the frame full of type and spun around, nearly knocking into Jacques. “Out of the way, boy,” the typesetter yelled.

3 Jacques flattened himself against the nearest wall. But he watched as Philippe helped Henri set the tray of metal pieces into the press and clamp it into place. Behind them, Jean-Claude smeared what looked like shiny black paste onto a board. “Ink!” thought Jacques. Jean-Claude then grabbed two rounded balls of leather topped with handles. He pressed the balls against the plate of ink, and then dabbed their blackened bottoms on the type held tightly in the frame. Jacques could see the surface of the type turn dark as the layer of ink grew thicker.

4 Philippe stepped in, holding a large sheet of cream-colored paper by its edges. Working together, the three men gently fitted the paper into the press so it lay on top of the type. Then Philippe grabbed the huge lever that jutted out from the side of the press. He pulled it toward him with a powerful, even stroke. The great screw in the center of the press turned. A flat, wooden board descended, pressing the paper down onto the inked type beneath it.

5 Jacques forgot all about staying out of the way. He sensed something remarkable was about to happen. He stepped closer to the press as Philippe released the lever. Jean-Claude reached in and lifted up the paper. Perfect rows of black letters stood out against its creamy surface. Jacques thought it was the most beautiful thing he had ever seen.
How to Use a Printing Press

By Jacques

Help Jacques write instructions for using the printing press. Fill in each blank with the correct word from the word bank. Each word is used only once. Then write the number of the paragraph from the text that best supports your answer. The last instruction is supported by an image rather than by text.

<table>
<thead>
<tr>
<th>press</th>
<th>printing press</th>
<th>dry</th>
</tr>
</thead>
<tbody>
<tr>
<td>ink</td>
<td>type</td>
<td>paper</td>
</tr>
</tbody>
</table>

1. Arrange the ______________ to form words. (paragraph ______)

2. Set the tray of type onto the ______________. (paragraph ______)

3. Smear the ______________ onto the surface of the type. (paragraph ______)

4. Lay a large sheet of ______________ on top of the type. (paragraph ______)

5. Pull down the lever to ______________ the paper down onto the inked type. (paragraph ______)

6. Lift the sheet of paper off the press and hang it to ______________. (image)
Interjections

Underline the interjection in each sentence.

Example: Wow! That magic trick was cool.

1. Ow! That really hurt.

2. Oh, that was easy.

3. Yuck, my shoes are muddy.

4. Hurry! You’ll miss the bus.

Fill in each blank with an interjection from the word box that best fits each sentence. Then write the type of interjection (strong or mild) on the line that follows.

<table>
<thead>
<tr>
<th>Shh</th>
<th>Oops</th>
<th>Ah</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oh no</td>
<td>Hooray</td>
<td></td>
</tr>
</tbody>
</table>

Example: Hooray! We won the kickball game.
Type: Strong

1. ____________! I accidently spilled my milk.
   Type: ____________

2. ______________, do not disturb the class.
   Type: ______________
3. ________________! I forgot to bring my library book to school, and it is due today.
   
   Type: ________________

4. ________________, so that is why she is angry.
   
   Type: ________________

*Write a response to each situation that includes an interjection. Remember to include the correct punctuation following the interjection.*

**Example:** You can't wait to go to the amusement park.

   Great! We go to the amusement park today!

1. You are a little bit scared to ride on the roller coaster.

   ________________________________
   ________________________________
   ________________________________

2. You pretend to have a stomachache so you do not have to ride on the roller coaster.

   ________________________________
   ________________________________
   ________________________________

3. In the end, you ride on the roller coaster and really enjoy it.

26 Rue des Cordonniers  
Paris, France  
June 21, 1460

Dear Cousin,

My priest, Father Pichot, has graciously agreed to pen this letter on my behalf. Our meeting last November at the inn reminded me of the importance of family and how much fun we had as children playing together. I enjoyed hearing about your exciting new printing business and wondered if you might have a job for my son, Jacques.

Jacques is now 13 and a very hard worker. He helps his mother and me at home and recently has begun doing chores and errands for our elderly neighbor. Of my seven children, Jacques has always been the one for whom I’ve had the highest hopes. He is responsible, quick-witted, strong, and cautious. His mother has made sure he is polite!

Jacques is willing to do any sort of job you have available. It would be a tremendous opportunity for him to learn from a successful businessman like you. Please send word if you have a place for my son, Jacques.

Your Cousin,

Peter

PS Please give Marie and the children our best.
Vocabulary for “Setting the Stage for Reform”

1. institution, *n.* an organization set up for a specific purpose (24)

2. congregation, *n.* the members of a church gathered for a religious ceremony (26)

3. recant, *v.* to publicly take back an opinion expressed in the past (26)

4. heresy, *n.* beliefs or opinions that challenge, or go against, the beliefs or opinions of those in power (26)

5. bequeath, *v.* to pass on property to someone in a will (bequeathed) (28)

Excerpt from “Setting the Stage for Reform”

Read the excerpt from Chapter 3, “Setting the Stage for Reform,” and complete the activity that follows.

Gutenberg’s printing press did change the world: at least the European world. But before we talk about the changes that took place in Europe in the 1500s, let’s journey further back in time.

You may remember that after the fall of Rome in 476 CE, there was no longer a strong government to unite people in different countries. Instead, the Catholic Church took control. It soon became the largest and most powerful institution in western Europe. The Church united people through a common belief in the Christian God and the Christian promise of heaven.

The Church was very important to Europeans in the Middle Ages. It was the social glue that held communities together. It provided instruction on how to live in this world and how to get to the next world. The Church gave comfort and protection to those in need. The Church was also largely responsible for educating those fortunate enough to receive an education.

If you had lived during this period in history, the Catholic Church would have been a major focus in your life. Typically once a week, you would have gone to church to attend Mass. Mass is the central act of worship in the life of a Catholic. Depending on where you lived, the church you attended might have been an especially large and beautiful cathedral. Cathedrals were among the most impressive buildings in medieval Europe and would have been a constant reminder of the Church’s presence, power, and wealth. Most people, however, attended a much smaller local church.
Latin and Learning

Latin was the language of the Church. The priest conducted Mass entirely in Latin. Songs sung in church—by choirs, not the congregation—had Latin words. The Bible, too, was written in Latin. The problem was, only the Church's clergy and the most educated people in society could speak, read, and understand Latin. For everyone else, Latin was a foreign language. Imagine going to church your entire life and never knowing exactly what was being said or sung!

Since most people could not read or write, the local church was their main source of instruction with regard to Church teachings. One of the most important teachings was that the Church provided the only path to heaven. People who disobeyed or opposed Church teachings risked punishment. If they persisted in doing something wrong, or in holding to beliefs that did not follow Church doctrine, and refused to recant, they could be accused of heresy. A person charged with heresy could be excommunicated. This meant that a person's membership in the Christian community was cut off—and so, people believed, was their access to heaven. In some cases, heresy was punishable by death.
Growing Power and Influence

Throughout the Middle Ages, the power of the Church continued to grow. Part of the reason behind this increasing power was money. Christians were not simply supposed to obey the Church, but they were also expected to support it financially. Everyone was expected to give a portion of their yearly earnings to the Church. The money (or goods, such as crops and livestock) was paid like a tax and called a tithe.

Over time, the Church became very rich. It owned land, buildings, and even parts of towns. Wealthy people bequeathed land and money to the Church. This wealth gave the pope, who was the leader of the Church, political as well as religious power.

Questionable Practices

For some time, the Church had raised money by issuing certificates that could release or pardon people from penance. Penance was the punishment that the Church taught was due after a sin was confessed and forgiven. Previously, penance had to be performed before a sin was forgiven. These certificates were called indulgences. Technically, indulgences weren’t sold; they were given in exchange for donations of money. Nevertheless, the money raised by the issuing of indulgences became a huge business for the Church. Many other corrupt practices also increased, such as the ability of wealthy people to buy their way into the clergy. In the late 1400s and early 1500s, religious reformers spoke out against corrupt practices in the Church and demanded reform.
The Beginning

The word reform means to make changes to something in order to improve it. In European history, the Reformation, or the Protestant Reformation as it is also called, was a reform movement that challenged the Catholic Church. The movement challenged the Church’s teachings and authority and demanded the reform of certain practices. The Reformation began as a religious debate but quickly grew into something much larger. It laid the foundation for what would eventually become known as Protestantism—one of the three major branches of Christianity. The other branch of Christianity, the Orthodox Church, was formed hundreds of years earlier. Now the Reformation would bring about Protestantism. In addition, the Reformation led to great political and social change throughout much of Europe.

One reformer in particular helped usher in the Reformation. His name was Martin Luther. Luther was a German monk and a devout Catholic. Yet the corruption he saw in the Church, along with his personal ideas about salvation, turned him against it. Luther’s dispute with the Church succeeded, at least in part, because of the printing press.

Martin Luther painted by Lucas Cranach the Elder, 1532 CE
Shifts in Power

As a result of the Reformation, Europe experienced unrest, persecution, and several wars. However, Europe emerged from this period in history as a very different place. In some countries, religious reform was accompanied by political reform. A number of European monarchs challenged age-old traditions of power in relation to the Church. They seized and then redistributed power, shifting it from the Church—and its leader, the pope—to the state. This shift in power made monarchs more powerful. Over time, new forms of government were created in which more people had a voice.

In time, the Catholic Church listened to the critics and began to reform itself from within. It became a more unified institution, despite having lost some of its political influence. To a large extent, much of northern Europe and England became a stronghold of Protestantism. However, most other western European states remained Catholic. As a result, European society was divided along religious lines in a way it had never been before. These divisions would continue to shape European history for many years to come.
Of Princes and Protestants

When many people hear the word Protestant, they think about Martin Luther and other religious reformers of the Reformation. However, the word actually originated as a result of several German princes protesting a ruling by the Church that Luther be arrested and punished for his rebellious actions and ideas. These princes were the original “Protestants.” Over time, however, the term came to be associated with religious reformers, like Luther, who protested against certain teachings and practices of the Church during the Reformation.
Summarize the excerpt using at least two of the following four vocabulary words: institution, recant, heresy, and/or devout.
Plan a Friendly Letter

Plan for writing a friendly letter from Jacques by answering the following questions.

1. Imagine you are Jacques, the young boy who has been working in the printing shop, and you have learned to read and write. Write a header for your letter. It should include an address similar to the one in the sample letter from Jacques's father to Monsieur Lafarge. Be creative.

2. Who will you (as Jacques) write to? You may make up a name for the recipient, but you should have a specific person in mind: friend, family member, or future coworker. Write down the name of the person you will write to and how you know him or her.

3. All letters should have a purpose. What is the purpose of your letter?
4. The body of your letter will identify and explain the purpose of your letter. List three details or points that will be important for you to include in the body of the letter. (You may use questions 5–10 to help you think of three details to write about.)

________________________________________

________________________________________

________________________________________

_You should answer at least two of the following questions to help you plan your friendly letter._

5. Why did you decide to work in the printing shop, and what do you like about working there?

________________________________________

________________________________________

________________________________________

6. What challenges do you face?

________________________________________

________________________________________

________________________________________
7. With whom do you work? What are they like?

8. Has working in the printing shop given you ideas about what you would like to do in the future?

9. What were some of the problems with the printing press? List any that should be mentioned in your letter.

10. What are the advantages of the printing press? Which ones will you discuss in your letter?
Challenge: *Answer these questions to make your letter more interesting.*

11. Describe your personality. (Some of this information may come from your imagination, but you should use details in the text to guide you). List two qualities or traits that you want to express in your letter.

________________________________________________________________________

________________________________________________________________________

12. What is the recipient of your letter like? (This should come from your imagination). Name two traits that you might consider when writing the letter.

________________________________________________________________________

________________________________________________________________________
Subject-Linking Verb Agreement

Fill in each blank with the correct linking verb.

1. [present/to be] The books in the special collection ________________ expensive.

2. [past/to be] During the Middle Ages, books ________________ difficult to make.

3. [present/to feel] Parchment ________________ heavy compared to paper.

4. [present/to smell] The new book ________________ fresh, like fresh ink printed on paper.

5. [past/to sound] Henri ________________ scary when he yelled at Jacques.

6. [past/to be] In the end, Henri ________________ kind to Jacques.

7. [present/to look] The cathedrals ________________ beautiful and spacious.

8. [past/to be] During the Middle Ages, the Church ________________ very powerful.

9. [past/to feel] Martin Luther ________________ angry about the corruption in the Church.
10. [present/to be] I ____________ interested in learning more about Gutenberg’s printing press.

Write two sentences with linking verbs. One sentence should use a linking verb in the present tense, and one sentence should use a linking verb in the past tense.

1. ________________________________________________________________

   ________________________________________________________________

2. ________________________________________________________________

   ________________________________________________________________
4.2

Prefix *en*–

Write the correct word to complete each sentence.

1. The monks placed the ancient book into a wooden _____________.
   (close, enclose, case, encase)

2. The colors and designs made by an illuminator really
   ________________ the pages of the book.
   (ensured, endangered, enabled, enlivened)

3. Henri told Jacques to ________________ the pieces of type in the correct
   boxes.
   (case, encase, close, enforce)

4. The pope appointed leaders to ________________ that all Christians
   followed the Church's teachings.
   (sure, ensure, enlighten, enliven)

5. The tall stone walls ________________ the castle and kept it safe from
   attack.
   (close, enclosed, case, encased)

6. With the invention of Gutenberg's printing press, and the spread of books, many
   people became more ________________ about many new ideas.
   (sure, ensured, enclosed, enlightened)
For each word, write a complete sentence using the word.

1. danger

2. endanger

3. able

4. enable
Strong Verbs

Make a list of strong verbs that might be used to replace the italicized verb in each sentence.

1. Henri said something interesting to Jacques.

2. I went over to my friend’s house after school.

3. Jacques ran down the street.
4. Mom *took* the groceries out of the bag.

5. Jacques *put* his bag on the bench.
Vocabulary for “The Reformation Movement”

1. **ponder, v.** to think about deeply (**pondered**) (34)

2. **theology, n.** the study of religion (36)

3. **superior, n.** a person in a higher position (**superiors**) (36)

4. **thesis, n.** a statement or idea (**theses**) (36)

5. **intervene, v.** to come between; to prevent from happening (**intervened**) (38)

6. **extravagance, n.** something that is expensive or wasteful and not a necessity (38)

7. **defy, v.** to go against; to refuse to obey (**defying**) (39)

8. **sect, n.** a smaller group of people united by common religious beliefs that often contradict the beliefs of a larger group (42)

9. **self-disciplined, adj.** the ability to make yourself do what is necessary on your own without being told by someone else (43)

Spelling Words

The following is a list of spelling words. These words include prefixes you have learned in morphology lessons. During Lesson 10, you will be assessed on how to spell these words. Practice spelling the words by doing one or more of the following:

- spell the words out loud
- write sentences using the words
- copy the words onto paper
- write the words in alphabetical order

When you practice spelling and writing the words, remember to pronounce and spell each word one syllable at a time.

1. immeasurable
2. immobile
3. impatient
4. impossible
5. incorrect
6. indefinite
7. independent
8. incomplete
9. excavate
10. exclude
11. exterior
12. export
The following chart provides the meanings of the spelling words. You are not expected to know the word meanings for the spelling assessment but it may be helpful to have them as a reference as you practice spelling the words.

<table>
<thead>
<tr>
<th>Spelling Word</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>immeasurable</td>
<td>too large in size or amount; impossible to measure</td>
</tr>
<tr>
<td>immobile</td>
<td>not able to move</td>
</tr>
<tr>
<td>impatient</td>
<td>not able to be calm while waiting</td>
</tr>
<tr>
<td>impossible</td>
<td>not able to happen</td>
</tr>
<tr>
<td>incorrect</td>
<td>having errors or mistakes</td>
</tr>
<tr>
<td>indefinite</td>
<td>not already decided; likely to change</td>
</tr>
<tr>
<td>independent</td>
<td>does not need something or somebody else for support; can function on its own</td>
</tr>
<tr>
<td>incomplete</td>
<td>not finished; lacking some part</td>
</tr>
<tr>
<td>excavate</td>
<td>to uncover something by digging it out and removing dirt that covers it</td>
</tr>
<tr>
<td>exclude</td>
<td>to leave something out</td>
</tr>
<tr>
<td>exterior</td>
<td>an outer part or surface</td>
</tr>
<tr>
<td>export</td>
<td>to send a product out of a country to be sold in another country</td>
</tr>
</tbody>
</table>
### Practice Spelling Words

Write each spelling word under its definition. Then identify the word’s part of speech.

Excerpt from “What Is at the Center of the Universe?”

Read the following excerpt from “What Is at the Center of the Universe?” and complete the activity that follows.

You’ve probably seen the sun rise and set many times. You’ve noticed how it slowly moves across the sky during the day. Well, at least it seems to move. If you’ve paid attention during science, you know that the sun doesn’t orbit Earth. Earth orbits, or travels around, the sun, as do the other planets in our solar system. Earth also spins as it orbits the sun. It’s because Earth is spinning that the sun appears to move across the sky every day.

But imagine not knowing any of that. Imagine trying to explain the relationship between the earth and the sun based only on what you could see by looking up at the sky. If you think about it that way, it’s easy to understand why people in centuries past arrived at other conclusions.

The idea that the earth is at the center of things is called the geocentric model of the universe. At the beginning of the Reformation, this is what almost everyone in Europe believed to be true. The Catholic Church also supported this geocentric view.

But the Reformation was a time when many people were questioning long-held beliefs. Martin Luther and other Protestant reformers were challenging religious beliefs. Scientifically minded reformers were looking hard at the geocentric model of the universe, and they were discovering that it, too, needed to be challenged.
From Earth-Centered to Sun-Centered: Ptolemy and Copernicus

The idea that the earth was at the center of the universe seems to have had its start in ancient Greece. The Greek philosopher Aristotle wrote about it as early as the fourth century BCE. During the second century CE, a Greek astronomer and mathematician named Claudius Ptolemy expanded on Aristotle’s ideas. In fact, the geocentric model is sometimes called the Ptolemaic model.

Ptolemy supported Aristotle’s view that Earth stood still at the center of the universe, while the sun, moon, and planets all revolved around it. He thought these heavenly bodies were located in different spheres—something like gigantic, crystal-clear bubbles—with the bigger spheres around the smaller spheres, and Earth at the very center. For many hundreds of years, people accepted Ptolemy’s model of the universe. No one questioned his views—no one, that is, until a Polish astronomer named Nicolaus Copernicus came along.
Copernicus was born in 1473 CE, in the Polish city of Thorn (now called Toruń). In the early 1500s—about the time Martin Luther was forming his religious beliefs—Copernicus was studying the movements of the planets and stars. (He made all his observations with the naked eye, because the telescope hadn’t been invented.) What Copernicus observed happening in the heavens, however, didn’t really match Ptolemy’s geocentric model. He concluded that Ptolemy and the ancients were wrong. Earth does not sit still at the center of the universe. Instead, Earth and other planets revolve around the sun! Copernicus’s findings supported a heliocentric, rather than a geocentric, view of the universe.
Copernicus had made a great discovery. But he did not run out and shout it from the rooftops. In fact, he kept quiet about his work. Why? For one thing, he did not have enough evidence to prove his ideas beyond all doubt. Copernicus may also have feared what would happen to him if he publicly contradicted the Church's beliefs about the nature of the universe and the earth's place in it.

It wasn't until 1543 CE, at the very end of his life, that Copernicus published his findings in a book called *On the Revolutions of the Celestial Spheres*. According to some accounts, Copernicus was handed the first printed copy of his book while on his deathbed. Once again the power of printing helped to spread new ideas, this time in the area of science.

Initially, Copernicus's heliocentric model did not get much attention or cause much disturbance. But a handful of European astronomers believed that Copernicus was on to something.

**Greek Roots**

The word *geocentric* comes from the Greek words *geo*, which means "the earth," and *kentrikos*, which means "as or of the center." So, *geocentric* means having the earth as the center. *Helios* is the Greek word for sun, so *heliocentric* means having the sun as the center.
Johannes Kepler

German mathematician and astronomer Johannes Kepler was one of these people. While studying at the University of Tübingen in the 1590s, Kepler’s mathematics professor introduced him to Copernicus’s heliocentric theory. Being a mathematician, Kepler was able to understand and appreciate Copernicus’s observations and calculations. Over the next few years, Kepler pursued his own studies of the night sky, eventually publishing a book, *Mysterium Cosmographicum* or *The Cosmographic Mystery*. In this book he presented a mathematical model that explained the relative distances of the planets from the sun based on his—and Copernicus’s—observations.

Kepler’s book impressed another astronomer, Tycho Brahe. In 1600 CE, Brahe invited Kepler to come to Prague to help him calculate planetary orbits. Within a year, Brahe died and Kepler took over the work. Kepler continued his astronomical observations and eventually formulated theories about the way the different planets orbit the sun. These theories later came to be called Kepler’s laws of planetary motion.

Most of Kepler’s contemporaries had not changed their thinking, which is why Kepler was so excited when he learned about the discoveries of Italian astronomer Galileo Galilei.
Galileo and the Telescope

Born in Pisa, Italy, in 1564 CE, Galileo Galilei (many people refer to him just by his first name, Galileo) started his career thinking he might become a doctor. At the age of 17, Galileo headed off to the University of Pisa with that plan in mind. But after only a couple of years, he left medical school to study—and then later teach—mathematics.

Galileo was a brilliant mathematician. He made many calculations and discoveries about how objects move. As a well-educated man, he was very familiar with the writings of Aristotle and Ptolemy and the geocentric model of the universe. But he had also read Copernicus's book. Like Copernicus, however, Galileo recognized that no one had yet found conclusive proof that Earth and the other planets orbited the sun. At the time, Galileo was more interested in explaining how things worked on Earth, rather than out in space. But within a few years, his interests changed, thanks to a new invention.

In 1608 CE, a Dutch glassmaker named Hans Lippershey constructed one of the first telescopes. Galileo learned about the invention and very quickly improved on the design. Within a year, he was using a telescope to scan the night sky. He saw much that directly contradicted the ideas of Aristotle and Ptolemy. These ancient scholars had believed that all heavenly bodies were perfect, with smooth, unmarked surfaces. But through his telescope, Galileo saw that the moon's surface was rough and uneven, marked with mountains, valleys, and craters. Aristotle and Ptolemy also believed the knowledge of the heavens was complete; in other words, what they could see was what existed. With his telescope, Galileo discovered four new moons orbiting Jupiter.

In 1610 CE, Galileo published a book, *Sidereus Nuncius*, or *The Starry Messenger*, in which he described what
he had seen through his telescope. These discoveries clearly contradicted the geocentric model of the universe, and that made quite a few people nervous. Several Church scholars went so far as to say that Galileo’s findings couldn’t possibly be true.

Yet as use of the telescope spread, other scientists in other countries (including Kepler) made similar observations of Earth’s moon and the moons of Jupiter. Encouraged, Galileo continued to study the night sky with his telescope, making discoveries and writing and speaking about them. Although Galileo was a devout Catholic, he didn’t think his findings challenged the Church or the Bible. He thought science and religion answered different questions. He said the purpose of the Bible was to show “how one goes to heaven, not how the heavens go.”

But that’s not how the Church scholars felt who had spoken out against Galileo earlier. They labeled him a heretic and encouraged priests and monks to condemn him.
Soon, much more powerful members of the Church began to speak against Galileo as well. Galileo wrote letters and gave speeches in order to defend himself, his findings, and Copernicus’s views, but things only got worse.

Almost Silenced

In 1615 CE, the Inquisition, or the court of the Catholic Church, discussed Galileo and the ideas of Copernicus for over two months. The judges, called inquisitors, decided that Copernicus’s ideas went against Church teachings. They ordered Galileo to stop promoting the idea that the earth moves rather than the sun. Galileo realized that he risked imprisonment, or worse, if he continued. Keeping quiet was much safer—and would also enable him to continue working in private.

Galileo decided to keep quiet, and did so for several years. However, when a new pope, Urban VIII, came into power, Galileo hoped that this new man with new ideas would listen to him. In 1624 CE, Galileo asked the pope for permission to write a book that would discuss the ocean tides in relation to the contrasting ideas of Ptolemy and Copernicus. The pope gave Galileo permission to write the book—as long as he treated the ideas of Copernicus as speculation, not as truth.

Galileo wrote the book as he wanted to, titling it Dialogue Concerning the Two Chief World Systems. The Inquisition was not pleased. Galileo was summoned to Rome to stand trial and was accused of being a heretic. In order to spare himself punishment, and possible execution, Galileo eventually recanted. But astronomers and mathematicians who came after him found more and more evidence that Galileo, Kepler, and Copernicus were correct. Around the middle of the 1700s, the Church began to change its position, acknowledging the huge body of evidence supporting motion of the planets around the sun.
Summarize this excerpt using at least three of the following core vocabulary words correctly: contradict, theory, contemporary, condemn, or speculation.
Vocabulary for “The Catholic Church Responds”

1. **embrace, v.** to welcome wholeheartedly (*embraced*) (54)

2. **convert, n.** a person who has changed his or her beliefs or changed religions (*converts*) (54)

3. **cardinal, n.** a leader in the Catholic Church who is chosen by the pope (*cardinals*) (54)

4. **order, n.** a religious group with specific beliefs and practices (*orders*) (54)

5. **calling, n.** a strong urge to pursue a specific profession or way of life (56)

6. **spiritual, adj.** of or related to religious beliefs and feelings (56)

7. **decree, n.** an official order that must be followed (*decrees*) (58)

8. **revitalize, v.** to give life to or energize again (*revitalizing*) (58)

9. **censor, v.** to examine and control the content of materials (*censored*) (60)

10. **immoral, adj.** going against the principles of right and wrong that are generally accepted by most members of a group (61)

11. **persecute, v.** to treat someone unfairly or cruelly because of his or her religious beliefs (*persecuted*) (61)

Write a paragraph summarizing the Catholic Reformation. Be sure to include the cause, actions, and outcomes of the Catholic Reformation.

Challenge: What is the relationship between the Protestant Reformation and the Catholic Reformation?
The Catholic Church Responds

Read this chapter to a family member to build fluency. You should read it aloud at least once from beginning to end without stopping.

Chapter 6

The Catholic Church Responds

In the early 1500s, probably no one—not even Martin Luther—imagined how much Europe would change as a result of the Reformation. But as the religious reform movement gained strength, many people left the Catholic Church and embraced the teachings of various Protestant reformers.

Before Luther wrote his Ninety-Five Theses, western Europe had been largely united by a single religion: Catholicism. After Luther, northern and northwestern Europe became strongholds for Lutheran, Calvinist, and other Protestant believers. Southern Europeans, especially those in Spain, France, and Italy, remained primarily Catholic. By the 1530s, Europe was deeply divided by religion.

As the number of converts to Protestantism grew, leaders in the Catholic Church realized they needed to take action. The Catholic Church’s response to the Reformation is called the Catholic Reformation, or the Counter-Reformation. It opposed, or countered, the Protestant-driven Reformation.

Several popes were involved with the Catholic Reformation, but the man who started things moving was Pope Paul III.

The Catholic Reformation Gets Underway

In 1536 CE, Pope Paul III appointed a group of cardinals to investigate what was right—and wrong—with the Church. The cardinals identified many problems. These included corrupt practices such as issuing indulgences for money. Their findings also revealed a relatively uneducated priesthood, and monasteries and religious orders that were not following Church teachings.
After considering the cardinals’ report, the pope and his advisors laid down plans for reform. They decided to focus on weeding out corrupt practices within the Church. They saw the need to more clearly state Catholic beliefs and teachings. They also hoped to halt the spread of Protestantism and bring former Catholics back into the faith.

The goals seemed clear. Now the challenge was to accomplish them.

Ignatius of Loyola and the Jesuits

One of the first things Pope Paul III did was to encourage new religious orders within the Church to help promote reform. Perhaps the most influential of these Catholic organizations was the Society of Jesus, or the Jesuits, as they were also known. Ignatius of Loyola, a Spanish priest, had founded the Jesuits several years earlier.

Ignatius had taken a long and unusual path to the priesthood. Born in 1491 CE—the year before Christopher Columbus sailed for the New World—he had spent his early adult years in the Spanish military. While defending a Spanish fort from an invading French army, Ignatius was hit by a cannonball. The cannonball shattered the bones in one of his legs. His recovery was slow and painful. He was forced to spend a lot of time lying down while his leg healed. To pass the days, Ignatius read. However, the only available reading materials in the place where he was recovering were religious books. There was an illustrated book that told the story of Christ’s life and a book about Catholic saints.
As Ignatius read, he felt he was being called by God to a new life of good works. After his leg healed, he left the military and studied to become a priest.

While studying for the priesthood, Ignatius kept detailed journals in which he wrote about the challenges of his new calling. Later in life, he turned his journals into an inspirational text called *Spiritual Exercises*, complete with prayers and meditations. Ignatius thought the book might help guide others on their own spiritual journeys. *Spiritual Exercises* became quite popular and was translated into many different languages.

Ignatius was elected the first leader of the Society of Jesus, after it officially became a Catholic religious order. He counseled his fellow Jesuits to serve “without hard words or contempt for people’s errors.” Ignatius died in 1556 CE. He was declared a saint by the Catholic Church in the early 1600s, and so became St. Ignatius of Loyola.
How did the Jesuits help the Catholic Reformation? They worked to revive Catholicism in Europe and spread the faith to the New World. The members of the Jesuit order were well-educated. They were dedicated to teaching as well as preaching, and they built many schools and universities. Jesuits became tutors to the children of princes and noblemen in many European countries. Jesuits traveled far and wide as missionaries, bringing education and Catholic beliefs to the Americas and parts of Asia. Although the Catholic Church had lost power and influence in Europe during the Reformation, the Jesuits helped the Church regain some of what had been lost. They also helped the Church grow in parts of the world beyond Europe.
Council of Trent

In 1545 CE, Pope Paul III sent out a papal bull summoning the Catholic bishops of Europe to Trento, a city in what is now northern Italy. There they met to discuss and decide how best to reform the Church. The Council of Trent, as it came to be called, was the Catholic Church’s organized response to the Reformation.

The Council of Trent met in three separate sessions between 1545 and 1563 CE. The Council issued formal declarations that explained why the Church disagreed with the teachings of Protestant reformers. They clarified the doctrines that formed the basis of the Catholic faith. They affirmed that Church traditions as well as the Bible were the foundation of Catholic beliefs. The Council also took steps to reform corrupt practices within the Church by issuing a number of reform decrees.

Decisions made by the Council played a key role in revitalizing and unifying the Catholic Church. Some parts of Europe that had turned to Protestantism, including Austria, Poland, and a part of Germany called Bavaria, reverted back to Catholicism.
Other Actions of the Council

In Chapter One, you read about Johann Gutenberg and the invention of a printing press. By the early 1500s, hundreds of thousands of books and pamphlets were in print and being read by Europeans. Leaders of the Catholic Church recognized the power of the printed word. In an attempt to stop the spread of anti-Catholic writings, the Council of Trent decided to try to control what Catholics were allowed to read. The Council had Church leaders review new publications. If those materials went against Church teachings, they were censored.
Furthermore, the Council created the Index of Forbidden Books, a list of publications that were banned, or forbidden. By creating the index, the Church hoped to keep heretical or what they considered immoral writings from corrupting the minds of its faithful followers. Nearly all books written by Protestants were banned. Even the writings of some reform-minded Catholics, such as Desiderius Erasmus, were banned as well. Anyone caught reading, selling, or owning a banned book faced punishment.

Pope Paul III also revived the Inquisition as part of the Church’s response to the Reformation. As you have discovered, the Inquisition was the court system of the Catholic Church. It was tasked with rooting out heresy. The Index of Forbidden Books and the Inquisition were the two primary tools that the Church used to counteract Protestant ideas.

Results of the Reformations

By the second half of the 1500s, many of the problems in the Catholic Church that had triggered the Reformation had been corrected or greatly reduced. The Council of Trent had purged the Church, leaving it stronger and more united. However, it was clear that Catholic and Protestant sects, though now reconciled on some issues, would never be united again.

The Reformation and the Catholic Reformation left Christians in Europe bitterly divided. In Catholic-controlled areas, Protestants were persecuted as heretics. In Protestant strongholds, Catholics were persecuted with equal brutality. Some conflicts flared into terrible wars that lasted many years. In fact, these two religious reformations sparked many years of warfare in Europe.

But there also were positive outcomes as a result of these two reform movements. Ordinary people—not just the wealthy nobility—had access to Bibles and other texts that were printed in their native language. To some extent, people had a choice about which religion they could follow. They were able to associate more freely with others who shared the same beliefs. Kings gained greater control over their kingdoms. And over time, their subjects began to identify more with countries and empires rather than with a particular religion.

Suffix –ist

Write the correct word to complete each sentence.

- piano
- soloist
- art
- dentist
- pianist
- science
- scientist
- solo
- artist

1. There are several examples of ________ from the Renaissance movement that are still well-known today, such as da Vinci’s Mona Lisa.

2. Advances made in ________ during the time of the Reformation showed that the earth was not at the center of the universe.

3. Mia walked up to the ________ and began pressing on its black and white keys to listen to the different sounds they make.

4. Many people prefer to perform as part of a large orchestra, but Vanessa prefers to be a(n) ________.

5. Javier visited the ________ to get the pain in his tooth checked out.
6. The ________________ lived with the patron as he worked on a piece of art for the patron’s family.

7. The ________________ did not miss a note as she performed the difficult piano piece.

8. Brooklyn was nervous as she walked onto the stage to sing her ________________.

9. Copernicus was the ________________ who observed that the earth and other planets revolve around the sun.

Write a sentence using the following word.

10. novelist

________________________________________

________________________________________

Challenge Using your knowledge of the suffix –ist, determine the meaning of the following word with the suffix –ist.

Root Word: meteorology
Meaning: a science dealing with the study of Earth’s atmosphere and weather
Affixed Word: meteorologist
Meaning: ____________________________________________

________________________________________

Unit Assessment—The Reformation

Reading Comprehension

Today you will read two selections about the Reformation movement. After reading the first selection, you will answer several questions based on it. Then, you will read the second selection and answer several questions based on the texts.

Causes and Outcomes of the Reformation

1 Throughout the Middle Ages, the Catholic Church was the most powerful institution in western Europe. It was a focal point in the lives of nobles and commoners alike. It provided much of the education and social welfare in medieval society. The authority of the Church was absolute in religious matters and therefore had great influence over people’s lives.

2 The Church was also a wealthy institution. Power and wealth can be corrupting influences in any organization, and the Church was no exception. As people became more aware of corruption in the Church, dissatisfaction grew. In time, critics of the Church became increasingly outspoken in calling for reform.

3 In the 1500s, a wave of revolutionary religious reformers challenged the Church’s teachings and authority. These Protestant reformers, as they came to be called, broke away from the Catholic Church. With their followers they established their own form of Christianity—Protestantism.

4 Martin Luther (1483–1546 CE) is one of the most influential figures of the Reformation. Luther felt the Church had strayed from the Bible’s teachings, and saw no need for many of the Church’s long-held traditions. Some of its practices, such as the selling of indulgences, also prompted Luther to speak out against the Church.

5 Luther was a persuasive speaker who knew how to stir up people’s emotions. He also had a flair for drama. For example, once, the pope ordered Luther to recant statements he had made that contradicted Church teaching. Luther tossed the papal bull he had received onto a bonfire in front of a crowd.
6 Luther also had the power of the printing press working for him. Rapid publication of Luther’s pamphlets and sermons helped him reach a large audience, far beyond Germany’s borders. This was the first time in history that such a thing could happen.

7 Politics also played a large role in Luther’s successful break from the Catholic Church. Many of Germany’s princes were tired of being told how to rule their territories by the pope in Rome. They were fed up with paying large sums of money to support the Church as well. Luther’s push for religious reform was an opportunity for them to acquire greater power over their lands, and wealth, too. German princes who favored Luther helped support him and his followers. Parts of northern Germany became strongholds for Lutherans, as the followers of Martin Luther came to be called.

8 Protestant reformer John Calvin (1509–1564 CE) arrived on the scene in the 1530s. Based in the city of Geneva, Calvin’s rejection of Catholic teachings was even more far-reaching than Luther’s. Calvin believed strongly in predestination. This is the belief that God has already decided who is bound for heaven.

9 The Reformation left Europe deeply divided. For the most part, Protestants and Catholics turned against each other. Protestant groups were no more tolerant of dissenting religious views than the Catholic Church had been. In Protestant strongholds, Catholics were forced to convert or face severe penalties. Monasteries and convents were closed. Where Catholicism reigned, Protestants were treated just as badly.

10 The Catholic Church had to respond to such criticism. In fact, pressure for reform had been building within the Catholic Church even before Martin Luther. The Council of Trent met periodically from 1545 through 1563 CE. It was a key part of the Catholic Reformation (also known as the Counter-Reformation). The Council laid out the Catholic response to the Protestant reformers. It rejected all of the arguments that Luther and the other reformers had made against Church teachings. It also attempted to educate people and help them gain a clearer understanding of Church doctrines and practices. One way of doing this was to establish new religious orders such as the Jesuits. The Jesuits opened schools and universities. They worked in local communities. The Catholic Church put an end to many of the abuses and corruptions that had troubled it for so long. Aware of the power of the printing press, the Council took strong action to curb the spread of Protestantism. They banned certain books, and published others, promoting the traditional Catholic theology. In essence, the Catholic Church fought back.
The Catholic Church emerged from the Counter-Reformation with a better-educated clergy and a clearer focus. It was less corrupt and remained a central part of many people’s lives. The Church continued to spread its message far and wide. However, it never really regained the religious and political power it enjoyed during the Middle Ages.
Questions

1. What are the main factors that made the Catholic Church the most powerful institution in western Europe during the Middle Ages?

2. In paragraph 2, the author writes, “As people became more aware of corruption in the Church, dissatisfaction grew.” Which of the following phrases describes the meaning of the word corruption in this sentence?
   A. truthful actions by those in power
   B. social welfare actions to help others
   C. dishonest behavior by those in power
   D. social welfare actions to harm others

3. What are three reasons Martin Luther was such an influential figure of the Reformation?
   A. He did not believe in the Church’s teachings.
   B. He was a persuasive and dramatic speaker.
   C. People were no longer educated by the Church.
   D. The Church was not challenged by religious reformers.
   E. German princes supported Luther.
   F. The printing press helped him reach a large audience.
   G. Protestant reformers broke away from the Church.
4. What was one of John Calvin’s main beliefs?
   A. God has already decided who will go to heaven.
   B. People work to earn their way into heaven.
   C. The Catholic Church was wrong in its teaching.
   D. Church traditions should be upheld.

5. The first column of the following chart lists the challenges the Catholic Church faced during the Reformation. In the second column, write how the Church responded to the challenges. The last row is blank; find one more challenge the Church faced and provide its response.

<table>

Selection 1 Reading Comprehension Score: _____ /6 points.
Henry VIII and the English Reformation

1. Martin Luther triggered the Reformation in Europe. In England, it was King Henry VIII who made the break with the Catholic Church.

2. Henry became king in 1509 CE, when his father died, leaving him next in line to the throne. Just 18 years old at the time, the young king was far more interested in jousting, hunting, and dancing than running a country.

3. England was a Catholic country, and initially, relations were good between Henry and the pope in Rome. Not long after he took the throne, however, Henry asked the pope’s permission to marry Catherine of Aragon. Catherine had been married to Henry’s brother Arthur, who died in 1502 CE. Why did Henry need to ask the pope’s permission? He was a king, after all. According to a passage in the Bible, a man was not supposed to marry his brother’s widow. The Church maintained that their position was clear on this point, and therefore prohibited a marriage like the one Henry was proposing. But Henry insisted. He asked the pope to grant a special dispensation, or an exception, to the law banning his marriage to Catherine. Eventually the pope agreed, the dispensation was granted, and the marriage took place.

   The King’s Historic Decision

4. As much as Henry had wanted to marry Catherine, he had wanted a son—a male heir to the English throne—even more. Following the marriage, Catherine gave birth to several children, but only one, Mary, survived infancy. As the years passed, the king grew increasingly frustrated and concerned that they did not have a son.

5. It seemed to Henry that there was only one solution: he would divorce Catherine and marry someone else. There was, however, a major problem with this plan. The Catholic Church prohibited divorce.

6. Yet Henry was determined to get his way. He reasoned that if the pope could grant him one dispensation, why not two? There was now a new pope in Rome, Clement VII, successor to the one who had granted the first dispensation. When
Henry submitted his request that his marriage to Catherine be annulled, or declared invalid, Clement refused. No amount of persuasion or pressure would change his mind. Why? One reason was that Catherine was the aunt of the influential Spanish King, Charles V. Another was that Charles had had Clement imprisoned during the sack of Rome in 1527 CE, and the pope had no desire to make him angry. A third reason was that if Clement granted Henry an annulment, he would be declaring that the dispensation for Henry and Catherine to marry had been a papal mistake.

Henry was furious at the pope's refusal to grant his request. He had already found another woman he wanted to marry named Anne Boleyn. Although Henry was still a devout Catholic, he couldn't tolerate idea of the pope standing in his way. So he broke with the Catholic Church. Beginning in 1532 CE, Henry and his advisor Thomas Cromwell convinced Parliament, the law-making body of the government, to pass a series of laws. The laws made Henry the head of the Church of England. In 1533 CE, Henry divorced Catherine and married Anne Boleyn. He then demanded that all his subjects swear an oath of allegiance, or loyalty, to him. The pope excommunicated Henry for his actions. The English Reformation had begun.

**Henry's Wives**

Anne Boleyn gave Henry another daughter, Elizabeth, but no sons. In time, Henry grew tired of Anne, had her executed, and married again. His third wife, Jane Seymour, did give him a son, Edward. Jane died shortly after giving birth.

Now Henry needed a new queen. His advisor Cromwell looked to the Protestant countries of Europe for suitable candidates. Hoping to link England with the Protestant German nobility, Cromwell urged Henry to marry a German princess named Anne of Cleves. It was a big mistake on Cromwell's part because Henry didn't like Anne! In 1540 CE, Henry divorced Anne and had Cromwell executed!

Over the next few years, Henry's health failed. However he was not done with marriage. After Anne of Cleves, Henry married two more times. He married the beautiful, young Catherine Howard who sadly betrayed Henry. She too was executed. His last wife, Catherine Parr, outlived Henry VIII.

Henry died in 1547 CE. His nine-year-old son Edward VI took the throne. However, Edward was king for just a few years. He died at the tender age of 15 years.
Questions

7. The second section of this text is titled “The King’s Historic Decision.” What is the meaning of this title?
   A. The king broke away from the Catholic Church.
   B. The king supported the Catholic Church.
   C. The king spread the teachings of the Catholic Church.
   D. The king communicated and worked closely with the pope.

8. In paragraph 3, the author writes that Henry insisted that he be allowed to marry Catherine of Aragon. What is the meaning of the word “insisted”?
   A. requested
   B. hoped
   C. asked
   D. demanded

9. Which of the following was a reason for the ending of more than one of Henry’s marriages?
   A. execution of wife
   B. wife moved away
   C. natural death of Henry
   D. natural death of a child

10. Based on the text, what inference can be made about King Henry VIII?
    A. He was respectful of others.
    B. He would not give up and had to have and do things his way.
    C. He was fearful of the Catholic Church and its leaders.
    D. He easily accepted people’s answers and advice.

Writing Prompt

Compare and contrast the roles that Martin Luther and King Henry VIII had in the Reformation and Catholic Church. What were their motivations for challenging the Catholic Church? How did each man go about challenging the Catholic Church? Be sure to use information from the texts to support your answer.

Writing Prompt Score: _____ /4 points.
Grammar

Underline the interjection in each sentence. Then write the type of interjection on the line that follows, strong or mild.

1. Hooray! We get to have ice cream after dinner tonight.
   Type: ________________

2. Oh, I’ll just wait here for my friend.
   Type: ________________

   Type: ________________

4. Stop! A car is coming.
   Type: ________________

Fill in the blanks of the sentences with the correct linking verb.

5. [past/to be] My sister ________________ excited when she learned to read.

6. [present/to look] The flowers blooming in the garden ________________ pretty.

7. [past/to sound] The thunder last night ________________ very loud.
Write the correct preposition to complete each sentence. Some prepositions may not be used at all. Then write the function (place, time, or partner) in the box below the preposition.

<table>
<thead>
<tr>
<th>in</th>
<th>to</th>
<th>with</th>
<th>for</th>

7. Choose one of the following and write about the role the person or group played in the Reformation movement: Martin Luther, the Anabaptists, or John Calvin.

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

8. How are the geocentric model and the heliocentric model of the universe different from one another?
   A. The geocentric model states that the sun is the center of the universe; the heliocentric model states the earth is the center of the universe.
   B. The geocentric model states the earth is the center of the universe; the heliocentric model states the sun is the center of the universe.
   C. The geocentric model states Jupiter’s moons are the center of the universe; the heliocentric model states the sun is the center of the universe.
   D. The geocentric model states the earth is the center of the universe; the heliocentric model states the moon is the center of the universe.
The following question has two parts. Answer Part A and then answer Part B.

9. **Part A**: How did the scientific theories of Nicolaus Copernicus, Johannes Kepler, and Galileo Galilei challenge the views of the Church during the Reformation?
   
   A. Copernicus, Kepler, and Galileo all supported the Church’s views that the earth is at the center of the universe.
   
   B. The work of Copernicus, Kepler, and Galileo did not challenge the views of the Church during the Reformation.
   
   C. The work of Copernicus, Kepler, and Galileo showed evidence that the Church’s view that the earth is at the center of the universe was incorrect.
   
   D. Kepler and Galileo worked to disprove Copernicus’s work showing the sun was the center of the universe.

   **Part B**: How did the Church respond to Galileo’s challenge?

   ____________________________________________

   ____________________________________________

10. The Jesuits, led by _______, helped the Catholic Reformation by reviving Catholicism in Europe and spreading the faith to the New World.

    A. Martin Luther
    
    B. Christopher Columbus
    
    C. John Calvin
    
    D. Ignatius of Loyola

11. Which of the following were actions the Catholic Church took to reform itself? Circle all that apply.

    A. created the *Index of Forbidden Books*
    
    B. built walls around major Catholic cities to keep out Protestants
    
    C. took steps to reform corrupt practices within the Church
    
    D. established new religious orders such as the Jesuits
12. How did the Protestant and Catholic Reformations impact Europe? Circle all that apply.

A. The Catholic Church weakened further.
B. Conflicts flared between Christians that led to wars lasting many years.
C. More people had access to Bibles printed in their native language.
D. Kings lost control over their kingdoms as the Church took more control of people and land.
E. People began to identify more with countries and empires rather than with a particular religion.
F. Europe was bitterly divided between Protestants and Catholics.
Interjections

Underline the interjection in each sentence.

1. Bravo! You played the flute very well.
2. Yikes, the test is today?
3. Hmm, let me think about that and get back to you.
4. Oh no! I forgot my keys.
5. Grr! Stop interrupting while I am talking.

Write the interjection that best fits each sentence. Then write the type of interjection (strong or mild) on the line that follows.

<table>
<thead>
<tr>
<th>Ew</th>
<th>Yay</th>
<th>Shh</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wow</td>
<td>Ow</td>
<td>Oh</td>
</tr>
</tbody>
</table>

1. _________________! I stubbed my toe against the wall.
   Type: _________________

2. _________________! Those fireworks look amazing.
   Type: _________________

3. _________________, don’t say it so loudly; mom might hear about the surprise.
   Type: _________________
4. ________________! Spring break is next week.

Type: ________________

5. ________________, I did not know that I hurt your feelings.

Type: ________________

Write a response to each situation that includes an interjection. Remember to include the correct punctuation following the interjection.

1. You tasted something awful.
   
   ________________________________
   ________________________________

2. Your friend won the spelling bee.
   
   ________________________________
   ________________________________

3. The book you wanted to borrow is finally available at the library.
   
   ________________________________
   ________________________________

   
   ________________________________
   ________________________________
Subject-Linking Verb Agreement

*Fill in the blanks of the sentences with the correct linking verb.*

1. [past/to be] Martin Luther _________________ unhappy with the Catholic Church.

2. [past/to be] During the Middle Ages, most people _________________ illiterate.

3. [past/to feel] The Church _________________ responsible for changing their ways.

4. [past/to feel] The Catholic Church _________________ threatened by Martin Luther’s ideas.

5. [past/to look] The pope _________________ furious when Luther refused to change his mind about his beliefs.

6. [present/to sound] The letter from the pope _________________ serious.

7. [present/to be] Rome _________________ popular because of its historical sites.

8. [past/to be] The monks _________________ patient as they copied books with pen and ink on thin sheets of paper.
9. [present/to be] The stained glass windows ________________ colorful and decorative.

10. [present/to be] I ________________ amazed with Galileo’s discoveries.

Write two sentences with linking verbs. One sentence should use a linking verb in the present tense and one sentence should use a linking verb in the past tense.

1. ____________________________________________________________

2. ____________________________________________________________
Prepositions

Write the correct preposition to complete each sentence. Some prepositions will be used more than once. Then write the function (place, time, or partner) in the box below the preposition.

<table>
<thead>
<tr>
<th>with</th>
<th>up</th>
<th>to</th>
<th>in</th>
</tr>
</thead>
<tbody>
<tr>
<td>after</td>
<td>for</td>
<td>around</td>
<td></td>
</tr>
</tbody>
</table>

Example: **Before** the Reformation, many people believed that the **time** earth was **at** the center of the universe. **place**

1. Galileo was born **1564 CE** **the city of** Pisa, Italy. **place**

2. He used a telescope to look **at** the night sky and saw **craters** **the moon's surface**. Galileo also saw four moons **orbiting** **Jupiter**. **time**

3. **1610 CE**, Galileo published a book called *The Starry Messenger*, in which he wrote about what he observed **his** telescope. **time**
4. Galileo was summoned to Rome where he was ordered to stop talking about his ideas, so he decided to keep quiet a few years.

5. Astronomers and mathematicians who came Galileo found more evidence that he was correct. the middle of the 1700s, the Church began acknowledging the evidence that the planets circle around the sun.

Answer the following questions in complete sentences, using the prepositions in the word box. You will not need to use all of the prepositions. Underline the preposition(s) in your sentence.

<table>
<thead>
<tr>
<th>next to</th>
<th>with</th>
<th>on</th>
<th>at</th>
</tr>
</thead>
<tbody>
<tr>
<td>around</td>
<td>after</td>
<td>before</td>
<td>in</td>
</tr>
</tbody>
</table>

1. When do you leave your home to come to school?

2. Where do you usually spend recess and who do you usually spend it with?

3. What is your favorite place in the community and when do you usually go there?
Correlative Conjunctions

Write two sentences for each of the correlative conjunctions pairs in the chart.

<table>
<thead>
<tr>
<th>Correlative Conjunctions</th>
<th>Function</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>either/or</td>
<td>alternative</td>
<td>During the weekend, Alisha likes to either go swimming or play basketball.</td>
</tr>
<tr>
<td>neither/nor</td>
<td>alternative</td>
<td>Alisha neither likes spiders nor does she like scary stories.</td>
</tr>
<tr>
<td>both/and</td>
<td>addition</td>
<td>Both Devon and Nadia are Alisha’s good friends.</td>
</tr>
<tr>
<td>not only/but also</td>
<td>addition</td>
<td>Alisha is not only active, but also smart.</td>
</tr>
</tbody>
</table>

1. **either/or**

2. **neither/nor**

3. **both/and**
4. not only/but also

5. either/or

6. neither/nor

7. both/and

8. not only/but also
Prefix *en*–

Write the correct word to complete each sentence.

1. After Jacques cleaned the letters, they were _______________ in a box.  
   (enforced, forced, encased, cased)

2. Jacques was _______________ to read after a few months of working at the printing shop.  
   (able, enable, sure, ensure)

3. During his time at the monastery, Luther may have _______________ himself in a room to read the Bible.  
   (cased, encased, closed, enclosed)

4. Studying biblical passages likely _______________ Luther to see the corruption in the Church.  
   (enlivened, enlightened, endangered, enforced)

5. Church leaders worried that the spread of Luther’s ideas would put their authority in _______________.  
   (danger, endanger, rage, enrage)

6. Pope Paul III appointed leaders to _______________ Church teachings.  
   (force, enforce, able, enable)
Write the meaning of the root word. Then, add the prefix en– to the word. Determine the part of speech and meaning of the new word. Write a sentence using the new word.

1. sure

   Meaning: (adj.) _________________________________
   
   Add en–: ____________________
   
   New meaning: (     ) _________________________________
   
   Sentence: _________________________________
   _________________________________
   _________________________________

2. rage

   Meaning: (n.) _________________________________
   
   Add en–: ____________________
   
   New meaning: (     ) _________________________________
   
   Sentence: _________________________________
   _________________________________
   _________________________________
Suffix –ist

Write the correct word to complete each sentence.

<table>
<thead>
<tr>
<th>science</th>
<th>novelist</th>
<th>dentis</th>
</tr>
</thead>
<tbody>
<tr>
<td>piano</td>
<td>scientist</td>
<td>novel</td>
</tr>
<tr>
<td>pianist</td>
<td>art</td>
<td></td>
</tr>
</tbody>
</table>

1. *The House on Mango Street* is a _____________ by Mexican-American writer Sandra Cisneros.

2. Our _____________ used to belong to my grandfather, who gave it to us so I could learn to play.

3. The _____________ put on her white lab coat and safety goggles before starting the experiment.

4. My last visit to the _____________ went very well—no cavities!

5. Biology, chemistry, and geology are all branches of _____________.

6. The _____________ spent months practicing famous piano pieces before his audition to play a solo.

7. Poems, paintings, and sculptures are all types of _____________.
Write the correct word from the word box from the previous page to answer each riddle.

8. I work in a branch of science and gather evidence from various sources to learn more about what I study. Who am I?

________________________________________

9. I write fictional books. Who am I?

<td>Some titles on some slides grab the viewer’s attention</td>
<td>The titles on each slide do not grab the viewer’s attention</td>
<td>Titles are not included on each slide</td>
</tr>
<tr>
<td></td>
<td>The text on each slide clearly relates to the topic</td>
<td>The text on most slides relates clearly to the topic</td>
<td>The text on the slides relates loosely to the topic</td>
<td>The text on the slides does not relate to the topic</td>
</tr>
<tr>
<td></td>
<td>The images clearly support the ideas stated in the text</td>
<td>Most images clearly support the ideas stated in the text</td>
<td>Only a few images support the ideas stated in the text</td>
<td>The images do not support the ideas stated in the text</td>
</tr>
<tr>
<td><strong>Conclusion</strong></td>
<td>The title on the conclusion slide clearly summarizes the topic</td>
<td>The title on the conclusion slide summarizes the topic</td>
<td>The title on the conclusion slide loosely summarizes the topic</td>
<td>The title on the conclusion slide does not summarize the topic</td>
</tr>
<tr>
<td></td>
<td>The image clearly contributes to the meaning</td>
<td>The image contributes to the meaning</td>
<td>The image does not contribute to the meaning</td>
<td>The conclusion slide does not include an image</td>
</tr>
<tr>
<td></td>
<td>The conclusion provides one final, new thought about the topic</td>
<td>The conclusion provides one final thought about the topic</td>
<td>The connection of the final thought to the topic is unclear</td>
<td>No final thought is included</td>
</tr>
<tr>
<td><strong>Structure of the Piece</strong></td>
<td>All slides follow a logical sequence</td>
<td>Most slides follow a logical sequence</td>
<td>Some slides follow a logical sequence</td>
<td>Connections between slides are confusing</td>
</tr>
<tr>
<td></td>
<td>All information has been paraphrased</td>
<td>Most information has been paraphrased</td>
<td>Some information has been paraphrased</td>
<td>Little information has been paraphrased</td>
</tr>
</tbody>
</table>
You may correct capitalization, punctuation, and grammar errors while you are revising. However, if you create a final copy of your writing to publish, you will use an editing checklist to address those types of mistakes after you revise.
## Slide Presentation Editing Checklist

<table>
<thead>
<tr>
<th>Editing Checklist</th>
<th>After checking for each type of edit, place a check here.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Meaning (It sounds right when I read it aloud.)</strong></td>
<td></td>
</tr>
<tr>
<td>All my sentences have a subject and predicate.</td>
<td></td>
</tr>
<tr>
<td>I included all the words I wanted to write.</td>
<td></td>
</tr>
<tr>
<td>I took out repeated words or information.</td>
<td></td>
</tr>
<tr>
<td>I have checked how long my sentences are and split run-on sentences into two.</td>
<td></td>
</tr>
<tr>
<td><strong>Format</strong></td>
<td></td>
</tr>
<tr>
<td>All my slides have titles.</td>
<td></td>
</tr>
<tr>
<td>All my slides have at least one image.</td>
<td></td>
</tr>
<tr>
<td>I have used bullet points where necessary.</td>
<td></td>
</tr>
<tr>
<td>All my slides are logically sequenced.</td>
<td></td>
</tr>
<tr>
<td><strong>Capitals</strong></td>
<td></td>
</tr>
<tr>
<td>I began each sentence with a capital letter.</td>
<td></td>
</tr>
<tr>
<td>I used capital letters for all proper nouns.</td>
<td></td>
</tr>
<tr>
<td><strong>Spelling</strong></td>
<td></td>
</tr>
<tr>
<td>I have checked the spelling for any words I was unsure of or my teacher marked.</td>
<td></td>
</tr>
<tr>
<td><strong>Punctuation</strong></td>
<td></td>
</tr>
<tr>
<td>I read my writing piece aloud to check for commas at pauses and periods, question marks, and exclamation points at the end of my sentences.</td>
<td></td>
</tr>
<tr>
<td>I used commas, quotation marks, and apostrophes in places where they belong.</td>
<td></td>
</tr>
<tr>
<td>The titles in my reference list are underlined or in italics.</td>
<td></td>
</tr>
</tbody>
</table>

Based on the fix-ups I found using my editing checklist, my writing will be stronger in the future if I remember to watch out for:

Editing Goal 1: ____________________________________________

Editing Goal 2: ____________________________________________
