About the Teacher Resource Kits

For each of the four major literary units in *Grace Abounding* there is a corresponding Teacher Resource Kit, which includes Lesson Plans, Reading Check Tests, Vocabulary Tests, and answer keys. Please find the forementioned sections in the bookmark tab of your Teacher Resource Kit PDF.

Copyright Information.

The purchase of a Grace Abounding Teacher Kit grants to the teacher (Purchaser) the right to reprint materials as needed for use in the classroom. For instance, Student Handouts and other assessments may be reproduced as needed by Purchasers for use in the classroom or as homework assignments. Materials in the Teacher Kits may not be reproduced for commercial purposes and may not be reproduced or distributed for any other use outside of the Purchaser's classroom without written consent from the Core Knowledge Foundation.

Lesson Plans

With the lesson plans, teachers can target major language arts objectives while giving students exposure to important African-American writers, thinkers, and activists.

The first page of each lesson plan is for the teacher's reference only and should be used in planning for a day's lesson. The first page usually includes basic information about the lesson (e.g., objectives, time allotment, and content), a "mini-lesson" that contains basic information and terminology the students should know as well as examples for the teacher to write on the board and use as the basis of discussion and instruction.

Each lesson also contains at least one **Student Handout** and often two or more. The expectation is that teachers will make photocopies for all students. **Please note that these are not designed to be used as assessments but rather as instruction tools.** In many cases, depending on students' familiarity with a particular topic, teachers may decide to complete the Student Handouts as a class or in small group. Others can be assigned as homework, but generally it is assumed that the students will be allowed to access *Grace Abounding* and other resources (e.g. dictionaries or grammar books) when completing the exercises. However, if students are familiar with a topic, such as independent vs. dependent clauses, then teachers are encouraged to use the handouts for review or as assessments. In short, teachers are expected to use the lesson plans as they see fit in their classrooms.

There is a lesson plan for every literary selection in *Grace Abounding*; these lessons can provide a strong foundation for a language arts curriculum, particularly in grades 5–9. A lesson plan is based on its corresponding literary selection but it is not necessarily directly related to it. For example, Lesson 1.5 covers personal pronouns, and the Student Handout that accompanies the lesson. Please refer to the Table of Contents at the front of each Lesson Plans section for specific grammar, writing, and research topics. Generally, the lessons increase in complexity as you move from Unit 1 to Unit 4 in the book. However, the Teacher Resource Kits have been designed with the knowledge that most teachers will not be teaching *Grace Abounding* from cover to cover; therefore, the lesson plans are designed to give teachers maximum flexibility as they integrate *Grace Abounding* into various parts of the curriculum.

Reading Check Tests

All reading checks contain three parts: one page of basic recalling questions, one page of interpreting questions, and a short assessment essay.

These are intended, primarily, as a means to check whether students have read the selection, assuming it was assigned for homework. That is not to say, however, that students should not be allowed to refer back to the text in order to answer questions. If a student has read the selection then they should be able to complete the questions on the Reading Check in less than ten minutes, whether they refer back to the text or not. Students should be allowed 10–15 minutes to complete the assessment essays, although some may be suitable as longer take-home assignments, and a few require only a paragraph or so in order to formulate a thoughtful response.

Vocabulary Tests

Many selections in *Grace Abounding* contain Vocabulary in Place boxes, the majority of which contain words that every student should learn. The selections are useful for exposing the students to essential vocabulary, and the tests can be used to help solidify it as practical knowledge.

There are vocabulary tests for every selection in *Grace Abounding* that contains vocabulary glosses. A few selections, particularly in Unit 1, contain no vocabulary glosses and therefore no corresponding vocabulary activity. These are indicated in the Table of Contents for the Vocabulary Tests in each unit. There are several basic types of vocabulary activity, and some selections—particularly the more advanced and lengthier essays—have been divided into multiple tests. Selections intended for younger grades include simple vocabulary activities, such as word finds or crossword puzzles. Other vocabulary tests are multiple choice or fill in the blank, with several variations on each basic model.

GRACE ABOUNDING

The Core Knowledge Anthology of African-American Literature, Music, and Art

Unit I

Lesson Plan I.1 | “The Origin of African Proverbial Wisdom”

Lesson Objective: Identify complete sentences and distinguish independent from dependent clauses

Time: Forty minutes

Lesson Content: Read sentences, independent clauses, and dependent clauses from the selection, identifying the subjects, verbs, and types of clauses.

Lesson Overview: Many of the sentences and clauses in the folktale are in subject-verb order. The same structure is also common in the proverbs themselves. This selection is good to use for finding and identifying sentences and clauses.

Mini Lesson 1: Subject-Verb Pairs

Example: Anansi’s son, Ntikuma, was a light sleeper.

The subject of this sentence is *son*. The verb is *was*. After students have identified the subject and verb, have them write another sentence using the same subject and verb.

Mini Lesson 2: Clauses

All clauses have both a subject and a verb, but only an independent clause can function on its own as a sentence. Dependent clauses function as nouns, adjective, or adverbs within a sentence.

Independent Clause: Emily jogs every morning.

Independent + Independent: Emily does not play any sports, but she jogs every morning.

The word *but* in the sentence above is a **coordinating conjunction**, or connecting word that precedes an independent clause. A comma is needed before a coordinating conjunction when the second part of the sentence is an independent clause.

Dependent + Independent: Emily jogs every morning as long as the weather is okay.

The word *as* and the phrase *as long as* are known as **subordinating conjunctions**, which are used to join a dependent clause to the independent clause.

Key Terminology

Independent clause. A clause in a sentence that contains at least a subject and a verb and can stand alone as a complete sentence; also known as the main clause

Dependent clause. A clause that cannot stand alone as a full sentence and functions as a noun, adjective, or adverb within a sentence; also known as the subordinate clause

Coordinating Conjunction. A connecting word that precedes an independent clause. These include the words *and*, *but*, *for*, *nor*, *or*, *so*, and *yet*.

Subordinating Conjunction. A word or phrase that joins a dependent clause to an independent clause. Common subordinating conjunction are *after*, *although*, *as*, *as if*, *because*, *before*, *even if*, *even though*, *how*, *if*, *in order to*, *since*, *so that*, *than*, *that*, *though*, *unless*, *until*, *whatever*, *when*, *whenever*, and *while*.

GRACE ABOUNDING*The Core Knowledge Anthology of African-American Literature, Music, and Art***Unit 1****Student Handout 1.1 | “The Origin of African Proverbial Wisdom”**

For each of the sentences below:

- 1. List the **subject-verb pairs**. (Be aware that some subjects have more than one verb.)*
 - 2. Underline all **independent clauses**.*
 - 3. Circle any **dependent clauses**.*
 - 4. List all **coordinating conjunctions and/or subordinating conjunctions**.*
-

1. Perhaps his father, Nyame, gave Anansi all of this wisdom in order that he might share it with everyone else.
 2. Once upon a time, Kwaku Anansi possessed all the wisdom in the world.
 3. He fastened a rope to the jug and set off toward the forest early one morning before anyone else was awake.
 4. Anansi’s son, Ntikuma, was a light sleeper.
 5. Hearing his father tiptoe past, Ntikuma followed, for he did not want his father to hide all the wisdom.
 6. Anansi dragged the jug over the grassy savanna and across the river until he finally reached the deep, dark forest.
 7. Well, Anansi nearly fell out of that tree, jug and all.
 8. He was angry that his son had followed and spied on him.
 9. The jug crashed to the forest floor, and all the wisdom was flung around the world.
 10. Ever since then, people have collected those bits of wisdom and used them to make proverbs.

Unit 1

Lesson Plan 1.2 | “All Stories Are Anansi’s”

Lesson Objective: Identify verb tenses: past, present, and future. Also, identify the infinitive form of verbs.

Time: Thirty minutes

Lesson Content: Read verbs in the selection, identifying their tenses.

Lesson Overview: Since the story is told in chronological order from an omniscient narrator’s point of view, the verb tenses are fairly easy to identify. Be sure to remind students that different tenses used to describe a single action or state of being will confuse the reader and make one’s writing unclear. Also, use this lesson to discuss the infinitive form of verbs, which are not affected by the tense.

Mini Lesson: Tense Types

Past Tense: He **read** aloud while she **sewed**. Soon, he **was** asleep.

Present Tense: She **writes**.

Future Tense: He **will ride** the bike.

Infinitive Form: Her goal is **to go** boldly where no one has gone before.

Key Terminology

Past tense. A verb tense used to express an action or a condition that occurred in or during the past

Present tense. The verb tense expressing action in the present time

Future tense. A verb expressing future time

Infinitive Form. The base form of a verb, with no indication of tense

Unit 1

**Student Handout 1.2** | “All Stories are Anansi’s”

Underline all verbs in each sentence. Identify the tense or verb form by writing past, present, future, or infinitive underneath the underlined verb.

1. In the beginning, all tales and stories belonged to Nyame, the Sky God.
 2. The Sky God said: “I am willing to sell the stories, but the price is high.”
 3. “Do you think you can do it?”
 4. “My price is three things.”
 5. “For these things I will sell you the right to tell all stories.”
 6. He went home and made his plans.
 7. “Why do you stay in the rain that is falling?”
 8. The hornets answered: “Where shall we go?”
 9. He said: “My wife is stupid.”
 10. “But I’m sure that if I bring you out, I will have no thanks for it.”

Unit 1

Lesson Plan 1.3 | “How Many Spots Does a Leopard Have?”

Lesson Objective: Punctuate dialogue correctly

Time: Thirty minutes

Lesson Content: Edit dialogue by correctly using quotation marks and other punctuation.

Lesson Overview: Since most of the story is a dialogue between Leopard and Crocodile, students can easily observe the format and punctuation of dialogue in a published piece of literature. They must use quotation marks, add commas before quotes, and start a new speaker’s words in a new paragraph. After they finish the exercise, you may choose to have students write their own dialogue between folktale characters using proper format and punctuation.

Mini Lesson: Punctuation Check

Sample Conversations:

“How are you today, Karen?” asked Jamal.

“I am fine,” Karen replied, “even though my toe hurts.”

“Really?” asked Jamal. “What happened?”

“I dropped a brick on it this morning.”

Key Terminology

Punctuation. The use of standard marks and signs in writing and printing to separate words into sentences, clauses, and phrases in order to clarify meaning

GRACE ABOUNDING*The Core Knowledge Anthology of African-American Literature, Music, and Art***Unit 1****Student Handout 1.3** | “How Many Spots Does a Leopard Have?”

Add the correct punctuation to the passages from the story. The first two have already been done. Notice that in exercises 4–7 there are two speakers.

1. Looking at yourself again, I see. You are the most vain creature in all of creation.
Leopard was not embarrassed. If you were as handsome as I am, if you had such beautiful spots, you, too, would be vain.
“Looking at yourself again, I see. You are the most vain creature in all of creation.”
Leopard was not embarrassed. “If you were as handsome as I am, if you had such beautiful spots, you, too, would be vain.”
2. Good morning, Leopard Crocodile said.
“Good morning, Leopard,” Crocodile said.
3. Spots! Who needs spots? You’re probably so in love with your spots that you spend all your time counting them.
4. Perhaps you will count them for me, Crocodile?
Not on your life! answered Crocodile.
5. Good morning, Weasel. Would you count my spots for me?
Who? Me? Count? Sure. One-two-three-four.
6. Well, if you ask at the lake when all the animals come to drink, you will find someone who can count.
You are right, Weasel! And I will give a grand prize to the one who tells me how many spots I have.
7. Bear counted as far as twenty-nine this time and then stopped suddenly. Now, what comes after twenty-nine?
I believe thirty does, offered Turtle.
8. That’s right! exclaimed Bear. Now, where did I leave off?
9. The animals started arguing again. You’d better start again, suggested Cow.
10. It’s simple, he concluded. Leopard has only two spots—dark ones and light ones.

Unit I

Lesson Plan 1.4 | “The White Man and the Snake”

Lesson Objective: Identify sentence fragments.

Time: Thirty minutes

Lesson Content: To recognize a sentence fragment, students must be able to recognize a complete idea, or a subject and a verb that expresses the action of the subject.

Lesson Overview: Students will see the difference between short sentences and sentence fragments. They will learn to combine groups of words to make complete sentences from sentence fragments. A sentence fragment will be missing either a subject or a verb, or it will have a subordinating conjunction—such as *when*, *after*, *because*, or *before*—that indicates a relationship and therefore makes the group of words a sentence fragment until it is joined with the dependent clause that completes its meaning.

Mini Lesson: Sentence Fragments

Complete Sentence: Marie went to the market.

Subject = Marie Verb = went

Sentence Fragment: To get some dog food. (Missing a subject and a verb.)

After he went to the movies. (Contains the subordinating conjunction *after*.)

Key Terminology

Sentence. An independent grouping of words that has an identifiable subject or implied subject and a predicate containing a verb

Sentence fragment. A phrase or clause that is punctuated and capitalized as a sentence but does not constitute a sentence because it is lacking a subject, verb, or complement; sometimes fragments contain subordinating conjunctions

Subordinating conjunction. A subject that introduces a dependent clause and implies a relationship to the independent clause; examples include *after*, *because*, *if*, *where*, and *while* (See Lesson 1.1)

GRACE ABOUNDING*The Core Knowledge Anthology of African-American Literature, Music, and Art***Unit 1****Student Handout 1.4 | “The White Man and the Snake”**

Determine whether each passage below is a fragment or a complete sentence. If it is a fragment, rewrite it in the space provided, adding words of your own to make it a complete sentence. If it is a complete sentence, write complete in the space provided. The first two have been completed.

1. A man, while traveling in Africa.

A man, while traveling in Africa, came across an elephant with a splinter in its foot.

2. The man lifted the rock off Snake.

Complete

3. Even a weak man.

4. “After I went out of my way to help you.”

5. Who is the wisest of all the animals?

6. When they found him.

7. “The white man is puny.”

8. “Until I see this with my own eyes.”

9. So, the white man, Snake, and Elephant all.

10. “Let’s see the whole thing from the beginning.”

GRACE ABOUNDING

The Core Knowledge Anthology of African-American Literature, Music, and Art

Unit 1

Lesson Plan 1.5 | “Tug of War”

Lesson Objective: Identify personal pronouns and the persons, places, or things to which they refer.

Time: Thirty minutes

Lesson Content: Determine which pronouns should be used in a sentence by analyzing the subjects to which they refer.

Lesson Overview: “Tug of War” is told from a third person point of view with an omniscient narrator. So, pronouns are plentiful. Students will learn to recognize to whom each pronoun refers and what form the pronoun should take. After they finish the exercise, you might have students write a paragraph with several characters in it and have them use at least five pronouns correctly.

Mini Lesson: Personal Pronouns

Pronouns are substitutes for other words. There are seven major categories of pronouns; this lesson focuses on personal pronouns. There are three types of personal pronouns: subjective, objective, and possessive.

Subjective. The pronoun acts as the subject of the sentence: *I, you, he, she, we, it, and they.*

Example: **He** gave me flowers.

Objective. The pronoun acts as the object of the verb: *me, you, her, him, it, us, and them.*

Example: He gave **me** flowers.

Possessive. The pronoun defines ownership: *mine, yours, theirs, ours, his, hers, and its.*

Example: Now my heart is **his**. (Note: The word *my* in this sentence is a possessive adjective, which is similar to, but not the same as, a possessive personal pronoun; it looks like a pronoun, but it acts as an adjective because it modifies heart.)

Key Terminology

Pronoun. A pronoun can replace another noun or pronoun. A pronoun is the part of speech that substitutes for nouns or noun phrases and designates persons or things asked for, previously specified, or understood from the context.

Referent. Word to which a pronoun refers (See Student Handout)

GRACE ABOUNDING

The Core Knowledge Anthology of African-American Literature, Music, and Art

Unit 1**Student Handout 1.5 | “Tug of War”**

Read each passage from the selection and fill in the appropriate pronoun(s). Boldface words (in numbers 1–8) are referents, or the words to which the pronouns refer. The first two have already been completed. Please note that, in some sentences, it is possible to use pronouns that differ from those that are used in the actual story. This is fine, as long as students are able to justify their choices by properly identifying the pronoun referents.

1. **Elephant and Hippopotamus** call me ‘friend’ because **I’m** as powerful as they are.
2. **Elephant and Hippopotamus** laughed. “So,” they said, “**Turtle** says we call him ‘friend?’”
3. “**We** don’t call **him** ‘friend.’ _____ is so little that _____ don’t think of _____ at all.”
4. “**They** do not call **me** ‘friend’? Well, _____ will show _____ who is really powerful.”
5. “I call _____ ‘friend’ because that’s what **you** are—right, Elephant?”
6. “**You** are wrong!” rumbled **Elephant**. “And what is this foolishness _____ hear that _____ claim to be as powerful as _____ am?”
7. “Now, **Elephant**,” said **Turtle**, “just listen. Yes, _____ call _____ ‘friend,’ and yes, _____ say _____ are equal.”
8. “Now, if _____ pull **you** down, **I** am greater. If you pull _____ down, _____ are greater.”
9. “Oh, friend, I’m here!” shouted Turtle. “Come out of the water and give your friend a proper greeting, why don’t _____?”
10. “So, Turtle,” said Hippopotamus, “_____ are equal after all. _____ were right, my friend.”

GRACE ABOUNDING

Unit 1

Lesson Plan 1.6 | “Talk”

Lesson Objective: Distinguish Phrases from Clauses

Time: Thirty minutes

Lesson Content: To identify a clause by noticing that it has both a subject and a verb; to identify a phrase by noticing that it has either no subject or no verb (or neither)

Lesson Overview: The folktale “Talk” contains sentences with multiple subjects and verbs, so without knowing what a compound or complex sentence is, the student can learn to distinguish phrases from clauses. Through this exercise, teachers can also make students aware that varying sentence structure can make their writing more interesting. Students will read groups of words from the story and label each as a phrase or a clause. You can also have students write their own sentences using both phrases and clauses.

Mini Lesson: Identifying Clauses and Phrases

A clause is relatively easy to identify. If it has a subject and a predicate, then it is a clause. (A **predicate** is the part of the sentence that gives information about the subject and which must contain a verb).

There are noun phrases, verb phrases, and prepositional phrases. While it is not necessary for younger students to distinguish different types of phrases, it is important that they learn to distinguish phrases from clauses.

Noun Phrase. Serves as a noun, or the object of a verb, and usually contains an adjective

Example: He is **the person you need to meet**. He is **my best friend**.

Verb Phrase. Consists of a verb, its direct or indirect object, and any adverbs that modify it

Example: The play **has already started**. John **thinks we should go to the movies**, instead.

Prepositional Phrase. Contains a preposition (relates a noun or pronoun to another part of the sentence, such as *on, of, at, since, onto, over, and between*)

Example: The deer jumped **over the fence**.

Sample Sentence: I didn't know that the dog ran through the yard.

Phrase: *through the yard*

Clause: *the dog ran through the yard*

Key Terminology

Phrase. Two or more words in sequence that form a syntactic unit that is less than a complete sentence

Clause. A group of words containing a subject and a predicate and forming part of a compound or complex sentence

GRACE ABOUNDING*The Core Knowledge Anthology of African-American Literature, Music, and Art***Unit 1****Student Handout 1.6 | “Talk”**

Read each group of words and determine whether it is a phrase or a clause. If it is a clause, write the subject and verb. If it is a phrase, list any nouns, verbs, and/or adjectives that it contains. The first two have already been completed.

1. not far from the city of Accra

phrase not far (adj.), city (n.)

2. a country man went out to his garden

clause man (sub.), went (v.)

3. While he was digging

4. You never weeded me

5. Just then

6. on the trail

7. he asked them

8. no reason at all

9. Oh, yes it is

10. a talking yam

11. to dig yams

12. And my fish trap said

13. You'd run too

Unit I

Lesson Plan 1.7 | “Great Hymn to the Aten”

Lesson Objective: Identify Dependent and Independent Clauses

Time: Thirty minutes

Lesson Content: To recognize a dependent clause, which has a subject and a verb but does not express a complete idea; to recognize an independent clause, which has a subject and a verb and does express a complete idea

Lesson Overview: Although this is an epic poem and not a piece of prose, it is made up of proper sentences, some of which contain dependent clauses, independent clauses, or both. Students can read these lines of poetry as sentences and distinguish between the different clause types. Having completed this exercise, students may be prepared to write their own sentences that contain independent and dependent clauses. Tell them that writing is much more interesting to read if the sentence structure is varied. (See Lesson 1.1 for more details on dependent and independent clauses.)

Mini Lesson: Distinguishing Clauses

Sample Sentence: My sister cried because she scraped her knee.

In the sentence above, *my sister cried* is an independent clause because it can stand alone as a sentence. The rest of the sentence is a dependent clause because it cannot stand alone; it modifies the independent clause by explaining why “my sister” cried.

Key Terminology

Dependent clause. A clause that cannot stand alone as a full sentence and functions as a noun, adjective, or adverb within a sentence; also known as the subordinate clause

Independent clause. A clause in a sentence that contains at least a subject and a verb and can stand alone as a complete sentence; also known as the main clause

GRACE ABOUNDING*The Core Knowledge Anthology of African-American Literature, Music, and Art***Unit 1****Student Handout 1.7 | “Great Hymn to the Aten”**

Label each clause as a dependent or independent clause. The first one has been completed.

1. You rise in the lightland of the sky
independent
 2. You have dawned in the eastern highland

 3. Though You are far

 4. Though seen by them

 5. One could steal the goods from under their heads

 6. When the child emerges from the womb to breathe

Unit 1

Lesson Plan 1.8 | from *Sunjata*

Lesson Objective: Recognize Simple, Compound, and Complex Sentences

Time: Thirty minutes

Lesson Content: Recognize a **simple sentence**, which has a subject and a verb and expresses one complete idea; recognize a **compound sentence**, which has two complete ideas separated by either a comma or a semi-colon; recognize a **complex sentence**, which has a dependent clause and an independent clause

Lesson Overview: Students will read lines from the poem and identify them as simple, compound, or complex sentences. They will use the concepts they learned in the previous lesson about dependent and independent clauses. They will use their understanding of subjects and verbs. They will be able to recognize complete ideas and thus identify independent clauses.

Mini Lesson: Types of Sentences

Simple. The cat purred.

Compound. The problem was difficult, but I finally found the answer.

Complex. When I saw what you had done, I was happy.

Key Terminology

Simple sentence. A sentence having no coordinate or subordinate clauses

Compound sentence. A sentence of two or more coordinate independent clauses, often joined by a conjunction or conjunctions

Complex sentence. A sentence with an independent clause and at least one dependent clause

GRACE ABOUNDING

The Core Knowledge Anthology of African-American Literature, Music, and Art

Unit 1**Student Handout 1.8** | from *Sunjata*

Read each passage from the poem and identify it as a simple, compound, or complex sentence. These sentences are taken directly from Sunjata, but they have been revised from their original format in order to produce sentences with standard capitalization and line breaks.

1. Leave the smith and me together. simple
 2. When she had got herself ready, she left the land of Manding and went to the land of Susu.

 3. Night fell, and he and the woman were in his house. _____
 4. When he said that, his mother heard it. _____
 5. "I'm going because your mother is driving me away." _____
 6. "If they put that on the tip of an arrow and shoot it at this hill, they will kill my father."

 7. His heart palpitated, and he fell silent. _____
 8. It did not answer everybody, but it would answer the person for whom it had been laid down.

Unit 1

Lesson Plan 1.9 | from *The Interesting Narrative of Olaudah Equiano*

Lesson Objective: Changing verbs from passive to active voice

Time: Thirty minutes

Lesson Content: To recognize passive voice and to change it to active voice

Lesson Overview: Students will read revised passages from the poem, which have verbs in passive voice. Students will then transform the verbs into active voice to restore the sentences to vibrancy. Explain to students that when using passive voice, the verb comes before the subject.

Mini Lesson: Don't Be Passive

Consider the following sentence: “The ball was struck by the batter.” In this case, as in many others, the sentence would be stronger with the subject in the first position: “The batter struck the ball.” While there are some cases—particularly in poetry or during a dramatic scene in a story—the passive voice can actually enhance the mood of the piece. However, in most writing, it is best to make each sentence as clear as possible for the reader, which means eliminating unnecessary words. That said, sentences formed in the passive voice are usually grammatically correct, but overuse of the passive voice can make a piece of writing cumbersome and confusing.

Passive: The town was destroyed by the tornado.

Active: The tornado destroyed the town.

Passive: The most points were scored by the blue team.

Active: The blue team scored the most points.

Passive: A new place is what they need to find.

Active: They need to find a new place.

Key Terminology

Passive voice. A verb form or voice used to indicate that the grammatical subject is the object of the action or the effect of the verb

Active voice. Indicating that the subject of the sentence is performing or causing the action expressed by the verb

GRACE ABOUNDING

 2. Disputes were decided and crimes were punished by those *Embrenche*, or chief men, for which purpose they always assembled together.
 3. Their mode of marriage is thus:—both parties are usually betrothed when young by their parents, (though I have known of the males to betroth themselves).
 4. She is then delivered by her parents to the bridegroom.
