Prince Vincent

Once there was a prince named Vincent. Vincent came from France. He was a proud man with a loud voice.

Once, a bee stung Vincent on his cheek.

"Ouch!" said Vincent, grabbing his cheek. "What bee has stung me? What bee would dare to sting me?"

The bee buzzed.

"Look at me!" Vincent shouted at the bee. "I am the prince of France! You are a foolish bee if you think you can sting a prince like me!"

The bee buzzed off.

Vincent ran after the bee. He shouted in his loudest voice, "You will not escape from me, bee! I will ride after you on my horse!"

Vincent got his helmet and his lance. He got up on his horse. Then he rode off on his quest for the bee.

Vincent rode north and south. He rode past rivers and lakes. He looked for the bee in houses. He looked for the bee on farms. He looked for the bee up in trees and down in holes.

But he never found the bee.

The Beach

Last Sunday David and Eve went to the beach.

It was a sunny day. It got hotter and hotter. At last it was ninety-five degrees.

Eve laid out a blanket. Then she got out her sunscreen. She rubbed the white cream on her back. She rubbed it on her arms and her legs. She rubbed it on her nose and her cheeks. She even rubbed it on her elbows and her toes.

"David," she said, "would you like some sunscreen?"

"No, thanks," said David. "I'll be okay without it." Then he ran off to play soccer.

David played soccer. He tossed a Frisbee. He ran a relay race. He rowed a boat. He swam. He splashed in the waves. He went diving for shells. He made a scarf out of seaweed. Then he lay down and took a nap.

All this time the sun was shining brightly. Rays of sunlight were landing on David's arms and legs.

At last the daylight faded. David was set to go home. But when he got up, he felt some pain on his legs. He looked down. His body was as red as a lobster. His thighs looked like two roasted hams. His toes looked like ten bright red pigs running on the sand.

"EEK!" cried David. "I'm fried! I should have used Eve's sunscreen!"

Sink or Float

It was the first Thursday of summer vacation. It was hot. Joey Jenkins and his younger brother Pete were sitting by the pool trying to stay cool. Pete had his ankles and toes in the water.

"Hey Pete," Joey shouted at his little brother, "let's play sink or float."

"How do you play?" asked Pete.

"First I go and find something," explained Joey. "Then I ask you if you think it will sink or float. Then I throw it in the pool and we find out if you were right or wrong."

"Okay," replied Pete.

Joey ran to the garage and got a brass key.

That must be pretty heavy," said Pete. "I say it's going to sink for sure!"

Joey tossed the key in the pool. It sank below the surface in an instant.

"Okay, little brother," said Joey, "you won that one. Do you want to play again?"

Pete nodded his head.

Joey sprinted up to the house and got an apple from the boys' mom.

"I predict that will float," said Pete.

Joey tossed the apple in the pool and, sure enough, it bobbed and floated on top of the water.

Joey ran over to the woods and picked up an acorn that was lying beneath a towering oak tree.

"Gee," said Pete. "That's a tough one. An acorn might sink, but then again, it might float."

"Sink or float?" said Joey. "I need a decision now!"

"Um, I guess it will sink," Pete said.

Joey tossed the acorn in the pool. It bobbed and floated on top of the water right next to the apple.

"Ha, ha! You lose!" Joey cried.

Joey ran into the house and got a plastic model airplane he had built.

"Sink or float?" he asked.

"Sink!" said Pete.

Joey set the airplane ever so gently on the surface of the water. At first it looked like the airplane was floating.

"Ha, ha!" said Joey. "It floats! You lose again!"

"Not so fast!" said Pete. He thumped the water with both of his feet and made a gigantic wave. The wave went crashing over the airplane. The airplane filled with water and began sinking.

"It sinks!" said Pete, smiling. "So I win!"

"No fair!" said Joey. "That's cheating!"

Placement and Grouping Guidelines

We highly recommend that all Grade 2 teachers meet as a grade-level team to examine students’ scores across the entire grade level, rather than having each teacher examine only the scores of students in his or her own classroom. Homogeneous grouping for Skills instruction is the most efficient and effective way to differentiate instruction and meet students’ needs when teaching phonics skills. Once the grade-level team has examined the scores of all students on these assessments, you may find that it makes sense to regroup some students on the basis of their specific decoding skills for purposes of Skills instruction only.

The student scores you have been recording for both assessments will be useful in deciding where students should be placed for Skills instruction. Once students have been placed and grouped, these scores can be shared with other teachers who may be working with students for Skills.

(CKLA Skills instruction also includes spelling, grammar, and writing. However, decisions about placement in the CKLA materials are based on evaluating students’ reading (decoding) and basic comprehension skills.)

Grade 2 teachers should meet as a team after they have completed the Placement Planning Chart (having assigned a group number to each student in their class). Teachers may wish to write each student’s name and group number on an index card for ease in grouping students. Using the group numbers, begin sorting students from all classrooms on the basis of their group number, using the following guidelines.

<table>
<thead>
<tr>
<th>Number of Classroom Teachers</th>
<th>Grouping Approach</th>
</tr>
</thead>
<tbody>
<tr>
<td>One</td>
<td>The teacher should start all students in Groups 1 and 2 with CKLA Grade 2, Unit 2, providing individualized remediation in small groups using Pausing Point activities and/or the Assessment and Remediation Guide as needed. Group 3 needs intensive intervention outside the regular classroom and should not start with CKLA Grade 2, Unit 2.</td>
</tr>
<tr>
<td>Two</td>
<td>One teacher provides Skills instruction to all Group 1 and 2 students, starting with CKLA Grade 2, Unit 2, while the other teacher provides Skills instruction to all Group 3 students, starting with Grade 2, Unit 1 of the Assessment and Remediation Guide. OR one teacher provides Skills instruction to all Group 1 students, starting with CKLA Grade 2, Unit 2; the other teacher should provide Skills instruction to all Group 2 students, starting with CKLA Grade 2, Unit 2; and all Group 3 students, who need intense intervention outside the regular classroom, would not start with CKLA Grade 2, Unit 2 but rather be provided the needed intervention.</td>
</tr>
<tr>
<td>Three</td>
<td>One teacher provides Skills instruction to all Group 1 students, starting with CKLA Grade 2, Unit 2; another teacher provides Skills instruction to all Group 2 students, starting with CKLA Grade 2, Unit 2; and the third teacher provides Skills instruction to all Group 3 students, who need intensive intervention, starting with Grade 2, Unit 1 of the Assessment and Remediation Guide.</td>
</tr>
<tr>
<td>Four</td>
<td>One teacher provides Skills instruction to all Group 1 students, starting with CKLA Grade 2, Unit 2; another teacher provides Skills instruction to the higher-level Group 2 students, starting with CKLA Grade 2, Unit 2; a third teacher provides Skills instruction to the lower-level Group 2 students, starting with CKLA Grade 2, Unit 2; and the fourth teacher provides Skills instruction to all Group 3 students, who need intensive intervention, starting with the Grade 2, Unit 1 of the Assessment and Remediation Guide.</td>

Note to Teacher

If you have access to Grade 1 and/or Kindergarten materials, you may consider using those materials in addition to or in lieu of the Grade 2 Assessment and Remediation Guide.
