CKSci units are correlated to topics at the grade levels specified in the Core Knowledge Sequence, which allows students in schools following the Sequence to build knowledge grade by grade. In other settings, individual CKSci units may be used as supplemental resources.

In general, the content and presentation in the CKSci units for Grades K-5 are appropriate for young readers from the upper elementary grades through middle school. (Lexile levels range from 650 to 1000.)
